Every family should keep this preparation at hand ready for instant use when needed. #### PACIFIC COAST SHINGLES HAVE NATIONAL MARKET

The district forester at Portland has just given out the results of a study which show that western red cedar shingles from Oregon and Washington are shipped to every state in the Union. The report shows that Minnesota is the largest single purchaser of Washington shingles, while California is the biggest buyer of Oregon shingles. The middle west and northern states are very heavy buyers

while about 8 per cent of the total sales go to the southern states.

Oregon and Washington produced six and one-half billion shingles in 1919, or two billion more than in 1918. The cut for 1919 was less than that for 1916 or 1917, and far below that for 1903.
