

As A Citizen of Oregon You Need the Port of Portland

If you owned a store you could not make a big success unless your business methods were as modern as your competitors! Unless Oregon develops her shipping facilities she cannot expect to get her share of the world's business. It rests with the citizens of this state whether Oregon shall develop her wonderful resources and reach out for bigger markets, or remain practically an inland state.

To become a real port, a 30 foot channel must be dredged in the Columbia and Willamette rivers from Portland to the Pacific ocean. This will enable farmers, stockmen and lumbermen in the interior of the state to reach the markets of the world at a lower freight rate and greater profit to themselves.

The taxing and bonding power to make these improvements can be granted the Port of Portland only by the people of the state. You and every other citizen will benefit if you on November second,

Vote 310 YES on the ballot--The Port of Portland Dock Commission Consolidation Bill

Oregon Port Development League
L. W. Trimble, Secretary.

Milton.—Much building being done here.
Hood River.—New Park street school progressing.
Cottage Grove.—Prune orchard produces five tons to acre.
Sheridan.—Ryan sawmill in Gopher valley resumes operations.
Eugene.—New castle theatre nearing completion.
Lane County Lumber company

Different Colors of Paper
Many business men have a system of using different colors of paper for different printed forms, thus distinguishing each form by its color.

We can work this system out for you, using **HAMMERBELL BOND** the Utility Business Paper, and you will find that it saves you time and money. Let us show you the advantage of standardizing your paper and your printing.

COX'S VARIED ROLES

By SCOTT C. BONE

At "one" with Woodrow Wilson and for Wilsonism and all it implies, without reservation, yet beseeching a weary, tax-burdened country to elect him President. **That's Candidate Cox.**

An exponent, for campaign purposes, of progressive thought and lofty ideals, yet nominated and backed by Boss Murphy, Boss Brennan, Boss Taggart and Ed Moore! **That's Candidate Cox.**

Wettest of the wet aspirants for President, save Edwards, by Bryan's appraisal, in a Democratic Convention dominated by the wets, yet now endeavoring to convince an arid country that he is dry and ever has been a dry! **That's Candidate Cox.**

Charging that a corruption fund of \$15,000,000 was being raised to buy up the Presidency, and then, at safe distance from the seat of inquiry, raising the amount to \$30,000,000, yet without producing an iota of evidence in support of his wild charges. **That's Candidate Cox.**

A machine-made politician, vouched for by Taunmany, yet pretending to have been given the light in 1912 as a disciple of Theodore Roosevelt and Hiram Johnson! **That's Candidate Cox.**

Arraigning the press for not taking him seriously by printing his speeches, yet knowing, as a newspaper man, that the cost of print paper under this Administration is too high to give space to mere words! **That's Candidate Cox.**

Crying out against a mythical "Senate oligarchy," because the precious Wilson covenant failed of ratification, yet with full knowledge that hostility of Democratic Senators rendered ratification impossible! **That's Candidate Cox.**

A mild, dodging critic of Burlisonism and Palmerism, when confronted by hecklers out West, yet committed unqualifiedly to Burlisonism and Palmerism by the Democratic platform! **That's Candidate Cox.**

An apologist for the sinking of the Lusitania, a pacifist of the Newton Baker stripe as clouds gathered, and intervening on behalf of a rich slacker when war came on, yet today appealing for the support of American sons who went to the front! **That's Candidate Cox.**

Dry to the dries, wet to the wets, spirituelle to the spiritual, all things to all crowds, in the face of the G. O. P. landslide clearly impending, yet never daring to deviate in his devotion to Wilsonism or the Wilson League by the dotting of an "i" or the crossing of a "t"! **That's Candidate Cox!**

And, finally—an aerobic Ajax defying the lightning of public disapproval! **That's Candidate Cox.**

Elkton, was superintendent of the branch experiment station at Astoria for two years and was with the United States department of agriculture, Montross, Col., for four years. Before attending college he had lived on a farm for years, thus having gained much practical experience.

SALE OF RED CROSS SEALS IS STARTED

The Oregon Tuberculosis Association, under the direction of the executive secretary, Mrs. Saldie Orr-Dunbar, is organizing its forces throughout the state for the annual sale of Christmas seals. Robert W. Osborn, who has just conducted a tuberculosis survey of eastern Oregon, has been named seal director and is already in the field building up an organization for what the Association hopes will be the biggest and most successful sale yet held in the state.

The Public Health Associations will conduct the sale in the eleven counties where they exist; they are Jackson, Coos, Lane, Washington, Clackamas, Hood River, Union, Harney, Curry and Multnomah. In other counties other organizations have already signified their intention of taking an active part in the sale of the Seals.

The budget of the Oregon Tuberculosis for use in 1921 is \$35,000 and through the sale of the Christmas seals at a cent apiece, this sum will be sought. This means a sale of five seals per capita if the work of the Association is to be continued along its established lines. If a sum less than this is raised it will mean the sacrificing of some part of the vital educational, demonstration of the experimental work.

Four and a half million seals have been received by the Oregon Association. The 1920 Seal features a tiny green elf, who carries aloft the standard of the Anti-Tuberculosis Association, the red double-barred cross, while riding atop the pack of gifts carried by Santa Claus. The scheme of the stamp is to typify the "greatest gift of all, good health," and the attaching of stamps to all letters and Christmas packages during the month of December will insure the carrying of the gift of good health to hundreds of Oregon victims of this dread disease, as 95 per cent of the entire proceeds from the sale will be kept in this state to combat the disease.

SEASONAL FARM POINTERS

Farm Mechanics, O. A. C.—All farm machinery should be thoroughly overhauled before being put away for the winter. All repair work should be done in the winter so that when the time comes to use the machinery it will not be necessary to stop important work to fix them.

Horticulture, O. A. C.—Orchardists who have not been able to get their cover crop in as yet should do so as soon as possible. It must get its growth in the fall to be worth anything to the grower. Cover crops should be planted in late August or early September, but will do fairly well if planted now, especially if the winter is mild. The best combination for eastern Oregon is 30 pounds hairy vetch with one bushel grey oats per acre, drilled in. Spring vetch, 40 pounds to one bushel of grey oats, drilled in, are the best for western Oregon.

Poultry, O. A. C.—Proper attention to the housing of chickens at this time will pay big dividends to the poultryman. The pullets which are to produce the winter crop of eggs are about ready to begin laying. If kept in small quarters before they are put into their laying quarters they will be unnecessarily retarded. The pullets should start laying before the cold weather begins because cold weather will decrease their productiveness.

Animal Husbandry, O. A. C.—The eastern Oregon experiment station has demonstrated that steers fattened on alfalfa hay and ensilage made practically twice the gain made by those fattened on hay alone in the usual manner. This gain was made without any advance in cost per day of fattening. Details of this experiment may be obtained in bulletin No. 174, just issued.

New Livestockman Appointed

H. A. Lindgren, for the last year assistant editor of the Western Farm Livestock, Denver, has reported for duty as animal husbandman in the Oregon Agricultural college experiment station.

Mr. Lindgren was graduated from O. A. C. in 1911, having specialized in animal husbandry and dairying. He spent the year following graduation as manager of a creamery at

of October, 1920, at the hour of ten o'clock a. m. of said day at the County Court Room in said County has, by order of said Court been fixed as the day, time and place of hearing objections to said final account and the settlement thereof. All objections to said account must be in writing and filed with the Clerk of said Court on or before said day and time.

Z. T. Kintzley, Administrator of the estate of George B. Kintzley, deceased. Frank A. DePue, Attorney for the estate. 10-28-20

May Craft, Administratrix of the estate of Hortensia A. Carney, deceased. Frank A. DePue, Attorney for the estate. 10-28-20

DISCOVERY OF IRON ORE BOOMS COLUMBIA COUNTY

St. Helens, Ore., Oct. 27.—Recent discovery of large deposits of high grade iron ore in Columbia county is attracting attention of mining men throughout the United States. At least two companies already have acquired large holdings and are preparing to proceed with development work. It is reported that several Minneapolis timbermen who own property in the ore deposit district are becoming interested. A. M. Martin, of Chicago, and J. W. Flannery, of Cleveland, are planning the erection of a blast furnace to turn out pig iron and C. A. Finley, and H. A. Heppner, of Portland, are contemplating improving the land.
