Mr Stokes spent several days in pecting Springfield and investigated he conditions among the business
places, schools, electrica; wiring and connections, and the source and sup ply of the city's water for fire pro tection.
The law providing tor the office of tate fire warden was enacted in 1917. The object of the creation of this
department was to eliminate, as far as possible, the enormous fire loss of the state. Men who were trained and experienced along the line of fire prevention and protection were Mr. Stokes, G. W. Allen, and Horace Sykes, all deputy fire wardens, are making a survex of the conditions in
sil communities throughout the state. all communities throughout the state.
Mr . Stokes examines the conditions as to fire risks and protection in case of fire. Mr. Allen is a specialist in regards to ordinances and measure or the protection against fire, and Mr. Sykes has charge of the educa
 Speaking of the fire loss to th country Mr. Stokds sald that last year, with no great conflagrations,
fire caused a loss of $8350,000,000$ fire caused a loss of $\$ 350,000,000$ in theusand lives were lost and 40.000 people maimed for the remainder कt people maimed for the remainder
their lives. There were 136,000 res dences burned and 40,000 building
dives. which were supposed to have been
fire-proof were destroyed. New con-rre-proof were destroyed. New con-
truction in the United States amouhts to a bilition dollars annualiy fire amounts to nearly a losk from each year.
The work of running down those who commit arson is a very fimpor tant part of the fire wardens' activities. H. H. Pomeroy heads this de partment and is considered one of the best investigators in the United States, and has secured a Jarge num ber of confessions from those who
have committed arson. In the three
