**A. R. GRAY OPENS
NEW BRANCH STORE**

Further expansion of the Gray "Cash and Carry" business is announced today by proprietor A. R. Gray, who states that he has just closed negotiations for the purchase of the Grube & Stewart stock in Cottage Grove. This branch will be conducted by one of his experienced employes on the same strictly cash plan as the Eugene store.

This makes the fourth branch store to be opened by Mr. Gray and his employes, the others being located at Springfield, Lebanon and Orenco, and in nearly every case the expansion has proven profitable. The growth of the Gray business is the more striking in view of the fact that Mr. Gray's experience in actual merchandising is confined to three years since he took a partnership with Mr. Haxby in the Eugene store. After about a year of partnership business, he took over the store and has conducted it according to his own policies. During the past few months he has been associated in the business with his brother, Carl Gray, also an experienced groceryman. In this period he has added much to the capacity of the Eugene store and at the same time added to its attractiveness by installing the restaurant feature.

Commenting upon his work the past year, Mr. Gray stated that it has been his policy to follow the decline of the wholesale markets all the way down, believing it to be better to absorb the losses as they came along and clean up all old stocks in order to make room for the new. The wisdom of this he has demonstrated, he says, by the fact that the merciless cut in prices of staples has stimulated consumption so that volume has largely made up for the narrower margins. He states that his Eugene stock has been "turned over" no less than 16 times in the past twelve months.—Eugene Guard, March 22.

FARM REMINDERS

The decayed dormant spray is the first apple scab spray. It should be applied just after the leaves surround the tiny clusters of undeveloped

blossom buds have separated sufficiently so that the spray can reach the bud cluster.—O. A. C. experiment station.

Kale plants should be set now. Kale is recommended by the dairy department of O. A. C. as one of the best green foods for dairy cattle. It is a good milk stimulant.

The best control of scab and codling moth requires from four gallons of spray for an 11 year old apple tree to six gallons for a 17 year old tree, for each application.—O. A. C. experiment station.

More vegetable seeds were imported from foreign countries during 1920, than in 1919, according to O. A. C. department of vegetable gardening. Prices on these seeds have dropped considerably so that American grown seeds will have to be reduced in price in order to compete with foreign grown seed. This shows that foreign nations are getting back to normal in seed production.

The Pneumonia Month

March is a typical pneumonia month and usually gives a high rate of mortality for the disease. After a long and hard winter, the system loses much of its resistance and people grow careless. When every cold, no matter how slight, is given prompt and intelligent attention, there is much less danger of pneumonia. It should be borne in mind that pneumonia is a germ disease and breeds in the throat. Chamberlain's Cough Remedy is an expectorant and cleans out the germ laden mucus and not only cures a cold but prevents its resulting in pneumonia. It is pleasant to take. Children take it willingly.
