The Scout Master, while in The News office the other day stated that the last two meetings had been only partly successful, owing to the presence of unfriendly outsiders. At the last meeting there were several boys there as invited visitors, but there was one young chap whose presence was neither invited nor desired.

This particular young man seemed to suffer from a lapse of memory. Only a few weeks ago the Juvenile officer, Harbaugh had warned him to stay away.

When his attitude became obnoxious at the last meeting the scout master ordered him off the floor. His refusal in blankety blank terms compelled the scout master to forcibly eject him.

The greatest service that the community could render to this boy would be to find some means of compelling him to mend his ways before it is too late.

### AMERICANIZATION

The way to Americanize is to begin with yourself. Go to work at some honest job. Save some of your earnings. Pay for what you get. Do not unload yourself on your fellow citizens in some public job for which you have no preparation or ability. Be modest and courteous.

### LOWDENISM

One Governor Frank Lowden refused to take a place in Harding's cabinet as Secretary of the Navy because it was a field of activity in which he had no experience. He is a corn and cattle grower and governor of Illinois who abolished about a hundred boards and commissions and put in a few business heads and re-

duced the awful overhead burden of officialism. Look out Lowdenism.

### COOPERATION

This word is exactly the opposite of socialism and paternalism. Cooperation does not depend on state laws and state taxes to support what it undertake. It recognizes the necessity of brains, experience and industry and does no try to get along without capital. It divides profits in proportion to the service rendered in producing it.

### STANDARDIZATION

The invention of minimum wages and standardizing salaries got a body blow from the school officers of Marion county, Oregon, who refused to adopt a teachers set salary schedule. These farmers and business men said they were willing to pay a good salary to the experienced and successful teacher. That is common horse sense.

### Preventative Medicine.

The tendency of medical science is toward preventative measures. It is easier and better to prevent than to cure. Pneumonia, one of the most dangerous diseases that medical men have to contend with, often follows a cold or attack of the grip. The cold prepares the system for the reception and development of the pneumonia germ. The longer the cold hangs on, the greater the danger.

### CABINET SHOP

Go to H. E. Pitts' cabinet shop, corner Fourth and C streets, for your Sanitary Butter Mold, kitchen cabinets, kitchen tables, English breakfast tables and general cabinet work.

Take Chamberlain's Cough Remedy as soon as the first indication of a cold appears so as to get rid of it with the least possible delay. It is folly to risk an attack of pneumonia when this remedy may be obtained for a trifle.
