## CAN YOU SAVE <br> TEN DOLLARS A MONTH?

Everyone who is earning a fair income knows that he or she can save $\$ 10$ a month, even in these high cost of living days and not miss the amount laid by.

WHAT WOULD YOU GAIN by doing this simple and easy thing? What results would follow which would make this systematic practice worth while?
SUPPOSING that you held back $\$ 10$ from your earnings each month and placed the amount where it would earn for you at the rate of 8 per cent a year, and re-invest the income from your accumulation semiannualy? Do you realize that in 25 years you would have aquired approximately $\$ 9,160$ ?
OF THIS COMFORTABLE LITTLE FORTUNE of $\$ 9,160, \$ 3,000$ would represent the $\$ 10$ you laid by each month. Over $\$ 6,000$ would be the interest or dividends your money earned for you while you were accumulating it.
