Do not forget that next Tuesday, June 7 is the date of the special election. Have your mind made up as to how you want to vote on each measure, and why.

Negotiations recently carried on between George T. Summerlin, United States Charge d'Affaires, and Alvaro Obregon, de facto president of Mexico seem about to result in the recognition of the Obregon government by the United States and the resumption of diplomatic intercourse in the ordinary course between the two governments. It has seemed for some time back that the prospect of fairly stable and orderly condition of affairs in Mexico and fairly satisfactory relations between the two countries has been better than for many years.

Loganberries and raspberries should be examined by growers, and when numerous small holes are found in the leaves the plants should be sprayed with arsenate of lead, one half pound to 25 gallons of water. The holes indicate the sawfly, which may defoliate the field if allowed to go unchecked.

To the Voters of Lane County:

Having received the nomination for county commissioner of Lane county to be elected at the June election by petition of more than 3000 of the legal voters, I deeply appreciate the confidence of these electors in my ability to carry out the wishes of the people of this county.

If elected to the office I shall use my best endeavors to give equal jus-

**Hall's Catarrh Medicine**

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier, and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions.

Broccoli plants require from seven to eight weeks to make their seed bed growth in. They should be ready for the field setting the last week of June, or the first week of July.

## "You Save Money"

says the Good Judge

And get more genuine chewing satisfaction, when you use this class of tobacco.

This is because the full, rich, real tobacco taste lasts so long, you don't need a fresh chew nearly as often.

And a small chew gives more real satisfaction than a big chew of the ordinary kind ever did.

Any man who uses the Real Tobacco Chew will tell you that.
