University of Oregon, Eugene, June 8.—The position of forest lookout 16,000 feet above sea level, on the McKenzie river in the Cascade forest, will be held this summer by Miss Dorothy Dickey, a student in the University of Oregon.

She will begin her work about the 10th of July and continue till sometime in September, when the fall rains begin.

This is not a new work for Miss Dickey, for she was lookout last summer and was the first to discover 16 forest fires. Though her mountain post is eighty-five miles from Eugene she says that she does not get particularly lonesome.
