### LET US KNOW

The principal occupation of the people of Springfield, and in fact all western Oregon, during the summer months, is going somewhere. If you contemplate going anywhere, unless the occasion of your going makes it necessary for you to "leave between two days," we should be glad to learn of the fact in good time and publish it. If you think it is modesty that keeps you from coming around to the office or stopping one of us on the street and telling us about it, you can have an understanding with the neighbor in whose hands you leave the care of the chickens and cat that he shall drop a reference to your absence, incidentally like, where we can pick it up, and it will answer the same purpose. News paper men are very much like other people in this respect, that they do not know much of anything except what they find out from somebody.

The Loyal Legion of Loggers and Lumbermen, and, incidentally, the Pacific northwest, received the following editorial comment in the June 10 issue of the Lumber World Review, Chicago, of which Bolling Arthur Johnson, nationally famous lumber writer is editor: "Despite all prospects—the 4L's remain an organization, and that territory of the United States, in its lumber sections, is free from strikes and lockouts; while in other parts of the United States, in lumber sections, strikes are in progress, which makes us wonder once again why it would not be a good move to transplant the Loyal

Legion of Loggers and Lumbermen to all sections of the lumber producing territory of our country."

### A SPRINGFIELD ENTERPRISE

A group of Springfield boys have associated themselves, we do not feel justified in saying incorporated themselves, in an enterprise which, when it is brought to perfection, will no doubt make Springfield famous. They have undertaken to construct an aeroplane on a plan radically different from anything in that line we have yet seen afloat; different, in fact, from "anything that is in heaven above, or in earth beneath, or in the water under the earth." This same group of boys—not altogether the same individuals—have succeeded before in undertakings not any more promising than this, and we are confident they will come out of this with flying colors. We predict that when it is airship of theirs is once afloat in the air, it will be the wonder of the world—if the world is informed of it, and we intend to see that it is.

This is not the first time such an enterprise has been undertaken in Springfield. Several years ago, a man then pretty well known here spent two or three weeks in a certain barn working on the model of a new airship. We can show you the barn any day, we do not know where the man is, and we have not seen his name in the papers as the patentee of an airship.

Francisco and New Orleans was held up last week by a woodpecker—a red headed one.

The Limited was clicking off the miles toward El Paso when a block signal ahead dropped red forcing the engineer to stop and giving the flagman a chance to stretch his legs until the next clear block showed against the horizon. No train was in sight.

Investigation disclosed the fact that a red headed woodpecker, one of the busy kind that builds its nest in the tops of telegraph poles in the mequite country, had become interested in semaphore No. 3967 and had pecked away the lead wire to the track relay post just east of the signal.

As the block signals automatically order "stop" when anything happens to the mechanism, the feathered red head successfully prevented the progress of a transcontinental train—and escaped punishment.

The following note was received this week from A. W. McFarland, principal of the Lincoln school last year:

Dear sir:  
Please send The News to Beaumont, California, as I do not wish to miss one copy. You may be interested to know that I arrived safely in California. Found the wife and babies in good health. At present I am at Los Angeles taking summer school.

I would wish the best of all things to my friends and especially to the Boy Scouts.

Yours,  
A. W. McFarland.

Mr. Husband! "The first thing every wife should learn is to obey her husband." Vivian Martin in "Husbands and Wives," at Bell, Saturday, July 2nd.

We sincerely hope that the result of the combat between Dempsey and Carpentier, whatever it may be, will not impair the good relations which have so long subsisted between our government and that of France.

### SUMMONS

In the Circuit Court of the State of Oregon for the county of Lane.

Mary E. Clark, plaintiff, vs. Charles A. Clark, defendant.

To Charles A. Clark the above named defendant:

In the name of the State of Oregon, you are hereby required to appear and answer the complaint filed against you in the above entitled suit and Court on or before the 28th day of July, 1921, said date being more than six weeks from the date of the first publication of this summons and being the time prescribed for such appearance by you in the order of publication of the summons herein entered of record, and if you fail so to appear and answer for want thereof the plaintiff will apply to the Court for the relief in the complaint demanded and prayed for, to wit: For a Decree of the Court dissolving the marriage contract and bonds of matrimony now existing between you and the plaintiff on the grounds of desertion for a period of more than one year and for such other and further relief as to the Court may seem meet and equitable.

This summons is served upon you by publication thereof pursuant to an order of the Honorable G. F. Skipworth, judge of the above Court and entered of record on the 13 day of June, 1921, ordering that his summons be published once a week for six successive weeks in the Springfield News and the date of the first publication will be June 16th, 1921, and the last publication will be the 28th day of July, 1921.

FRANK A. DePUE, attorney for Plaintiff, residence and postoffice address, 5th and Main Sts., Springfield, Oregon.

Date of first publication, June 16, 1921  
Date of last publication July 28, 1921

### Recommends Chamberlain's Tablets

"Chamberlain's Tablets have been used by my husband and myself off and on for the past five years. When my husband goes away from home he always takes a bottle of them along with him. Whenever I have that heavy feeling after eating, or feel dull and played out, I take one or two of Chamberlain's Tablets and they fix me up fine," writes Mrs. Newton Vreeland, Minoa, N. Y. Take these tablets when troubled with constipation or indigestion and they will do you good.

### TIRES THAT COST LESS PER MILE

GOODYEAR Cord Tires cost less in the end. They give longer mileage, effect a saving in fuel, reduce car depreciation and give the riding luxury that insures a sense of ease, security and satisfaction.

When supported by reliable Heavy Tourist Tubes, Goodyear Cord Tires eliminate ordinary tire troubles. Blowouts are almost unheard of.

We sell these tires and tubes because we know they will give satisfactory service to our customers. The Packard, Cadillac, Franklin, White, Locomobile, and Haynes cars are equipped at their factories with Goodyear Cord Tires and Heavy Tourist Tubes. Quality products combined protect the reputation of each other.

Come into our Service Station and let us equip your car with tires that cost less per mile.
