

ICE CREAM
Is reasonable always. It may be Easter, August or January, but a dish of our ice cream tastes just as good at one time as another. One of the reasons for this is the purity and flavor of our ingredients.

Building Good Will

Any service company that expects to serve well must have public friendliness and good will. It cannot accomplish its work adequately if the people are unfriendly. We want every person we serve to think well of us and to deserve his good opinion.

Customer ownership is good will building. The suggestions and advice of our 8% Gold Note holders are valued by the management. Their influence makes the Company a better and more responsive public servant in every way.

As long as the Company grows it will need new capital for extensions and improvements. This being true, our home citizens have the opportunity to become investors in the Company and share in the earnings which the investment of their capital makes possible.

Inducing the public to invest in a defective security could not offer anything except a sound investment to the people of this community.
