While it is the topic of the times, cannot Mr. McManus give us Mr. Jigg's sentiments on disarmaments?

Clara Smith Hamon has consoled herself for the loss of her dear Jake, whom she found it necessary to shoot at last, by taking another man. It is said to be a real marriage this time. As our decency loving grandmothers and aunts used to say: the man who would marry a woman of well known unsavory history "can't be much".

The headline of an editorial on the economic situation, in a daily paper is, "The Road to Recovery." That is a good road to travel, when it is in traveling condition; but the trouble about it lately has been that too large a part of the working crew has been employed in putting up signs, and not enough in laying pavement.

If the Sinn Fein should carry their point of separating the south three-quarters of Ireland from the rest of the British Empire, they might as well establish their capitol at Dannybrook at first. It would be farther from England, and more representative of the spirit of the new Irish "republic" than Dublin.

A lone bandit entered a bank in Rockford, Washington, a few days ago, forced the three officers and three customers into the vault, robbed the bank of \$615, and got out of town. One of the men who were looking for him found him, covered him with an empty 22 caliber pistol, "forced" him to surrender and got back all the money. Incidents like this, if they occur too often, will bring the bandit business into contempt.

### TOWN AND VICINITY

Mr. and Mrs. E. Boetler, an aged German couple who lived near Thurston, will move the latter part of this week to Deepwater, Missouri, southeast of Kansas City to spend the remaining days. They have a son living there, and another near St. Charles, Missouri, from which neighborhood the old people came. For years Mrs. Boetler has brought butter, eggs and garden stuff into Springfield. Last Sunday, a number of their neighbors brought in provisions and enjoyed a farewell dinner with them.

Mrs. Edesse Cox, who, with her little daughter, has been spending the summer with her parents, Mr. and

### No Substitute Offered.

Say what you will about the druggists offering something "just as good" because it pays a better profit, the fact still stands that ninety nine out of a hundred druggists recommend Chamberlain's Colic and Diarrhoea Remedy, when the best medicine for diarrhoea is asked for, and do so because they know from what their customers say of it, that it can be depended upon.

The News \$1.75 in advance.

Mrs. M. M. Peery, in this city, will return this week to San Francisco.

He was a hypocrite, but a master orator and the spell of his Oratory Stealers." This picture is a second Miracle Man. Bell Sunday, Sept. 4.

Love, revenge, furious jealousy, super-human endurance, struggles, triumph—a splendid tale, told by a master story teller (Rex Beach), and acted by a flawless cast, is "The North Wind's Malice," at Bell Saturday, Sept. 3rd.

The river is shallow enough above the wagon bridge for a twelve year old boy to wade across it without wetting his bathing trunks much.

### The Ideal Purgative.

As a purgative, Chamberlain's Tablets are the exact thing required. Strong enough for the most robust, mild enough for children. They cause an agreeable movement of the bowels without any of that terrible griping. They are easy and pleasant to take and agreeable in effect.

## When you come right down to reason, what is there to "discount" tires —

THE next time a friend comes to you all excited about some wonderful tire bargain—ask him how much value he ought to get for each dollar of tire money.

It's astonishing that any car owner today should not know all the tire service he is entitled to.

Nor how to check up between the economy of par quality on one hand—and big discounts, surplus stocks, discontinued lines and retreads on the other.

For two years U. S. Tire makers have been telling the American people all about tires.

They have laid open the tire business from every angle.

They have always led the fight for better tires.

They have consist-

ently maintained quality first standards with certain economy for the tire buyer.

They have established 92 Factory Branches all over the country. Perfecting U. S. distribution so that you get a fresh, live tire every time you buy a U. S. Tire.

So when a man once decides on U. S. Tires he knows what he is getting in quality—service—economy.

In support of his own judgment he gets the pledged word and reputation of the largest and most successful tire concern in the world.

A sound reason for the fact that you see more U. S. Tires on more cars than ever this year.

"You get a fresh, live tire every time you buy a U. S. Tire."

### The U. S. CHAIN TREAD

One of the few tires of which it may be said that they deliver economy year in and year out and tire after tire.
