**Shave With Cuticura Soap The New Way Without Mug**

Proverb Analyzed.

A proverb hopes nothing, fears nothing that the eyes do not see, the ears do not hear. It is the doubting Thomas of life, of literature. "A man of the world is," as Mr. Balfour once neatly epitomized him, "one who does not believe anything good of the world." Well, so is a proverb.—V. H. Friedlaender, in Country Life.

**Jewels Early Drew Men's Attention.**

Personal ornaments or jewels appear to have been among the very first objects on which the invention and ingenuity of man were exercised. There is no record of any people so rude as not to employ some kind of personal decoration. The jewelry of the ancient Egyptians has been preserved in their tombs.

**Freshen a Heavy Skin**  
 With the antiseptic, fascinating Cuticura Talcum Powder, an exquisitely scented convenient, economical face, skin, baby and dusting powder and perfume. Renders other perfumes superfluous. One of the Cuticura Toilet Trio (Soap, Ointment, Talcum).—Adv.

**OUR GIFT TO THE BRIDE**

 We can sell you Doors, Windows, Roofing, Paint, Glass and Builders' Hardware direct. We are manufacturers. Write for prices before buying. Heacock Sash & Door Co., 212 First St., Portland.

## GROW MORE FOOD FOR FAMILY USE

Necessary to Save Shipping Costs on Water in Face of Lessened Returns.

**BEST TO GROW NECESSITIES**

Specialized Farming Has Created Peculiar Conditions — Poultry is Quickest Meat Supply to Produce on Farm.

(Prepared by the United States Department of Agriculture.)

"The American farmer is not going to be able this year to pay freight on water," said a department official. "Water makes up a large part of fresh fruits and vegetables. The answer is that he must grow his own table food. He must also study the possibilities of substitution. This applies to vegetables, fruits, poultry, eggs and dairy products which must be transferred from commercial channels to home consumption if they are to come within the reach of the average farmer's family.

**Peculiar Condition Created.**  
 "Specialized farming has created conditions of which comparatively few persons are aware. The grain farmer in many instances buys even his pota-

The Garden is a Good Source of Home-Grown Food.

atoes and green vegetables; the fruit farmer buys his dairy products; and even the man who raises milk for creamery, condensary or cheese factory is likely to send his cream or milk away, feed the skim milk or whey to the calves, and not make his own butter. This year, just as far as possible for him to alter his system in a single season, the department officials advise that he get back to the old plan which was aptly described as 'living at home.' This means not so much remaining on the farm as it does deriving every practicable product for consumption from the farm.

"The average American farmer knows how to raise other crops than those on which he specializes, but it has seemed good business, or at least expedient, to devote his energies to very few or even a single cash crop and buy his necessities, just as is done in other specialized industries. The grain farmer is perfectly capable of raising his own potatoes, his green garden stuff, and melons, tomatoes and other garden fruits, to take the place of orchard fruits which in many parts of the country have been killed by the late freezes. If the farmer has a piece of really good garden ground

**Paradoxical.**

"There is a contradictory sort of advertisement in the paper of this big business firm." "What is it?" "It is a summary of their winter stock."

**Safety Gloves.**  
 Safety gloves for machinists, have been invented, made of chrome leather and sewed with steel wire so that they will not rip.

**That's So.**  
 When the busy little bee gets a load he goes straight home—which is more than any man can do.

**Caste in China.**  
 In China an inferior upon horseback, meeting a superior, dismounts and waits until the other has passed.

**Are You Satisfied?** **BEHNKE-WALKER BUSINESS COLLEGE** is the biggest, most perfectly equipped Business Training School in the Northwest. Fit yourself for a higher position with more money. Permanent positions assured our graduates. Write for catalog—Fourth and Yamhill, Portland.  
 P. N. U. No. 38, 1921

## TEMPORARY PASTURES ARE BEST FOR SHEEP

From 10 to 14 Days is Long Enough on Same Ground.

**Basis of 1 Acre to 25 Animals is More Satisfactory Than Seeding Larger Areas—Smaller Lots Are Convenient.**

(Prepared by the United States Department of Agriculture.)

For health and for economical use of the pasturage it is undesirable to keep sheep on the same ground more than from ten to fourteen days, say specialists of the United States Department of Agriculture, in discussing the question of raising sheep on temporary pastures. The most generally useful size of lot is one acre to 25 sheep. This area, on an average, furnished in experiments 14 days' feed.

Arranging the size of lots on the basis of one acre to 25 sheep is more satisfactory than seeding larger areas and using hurdles to permit advance to fresh feed each day. Less labor is necessary, and by going to entirely new ground after ten or twelve days the danger of picking up parasite larvae on ground grazed over earlier is prevented. With a one-acre lot for 25 ewes, or correspondingly larger ones for larger flocks, it is an added advantage if their length is two or three times the breadth.

With a heavy crop of forage that would last longer than was considered safe to hold the flock on the same ground, a short piece of cross fence can readily be put down to divide the pasture into two parts. The smaller lots are also convenient with purebred flocks to provide for the separate pasturing of smaller lots of ram and ewe lambs.

Movable fencing is not likely to be satisfactory for the outside-lot fences unless the whole area to be used lies in a long strip with side fences, when only two end pieces need to be in place at one time for the ground being grazed.

**KILL GREEN CABBAGE WORMS**  
 Arsenate of Lead Spray Will Prove Satisfactory to Destroy Various Insects.  
 The green cabbage worm can be killed with an arsenate of lead spray in which laundry soap has been mixed to make it adhere to the leaves. This treatment will also kill the cabbage looper and other cabbage worms. Nicotine sulphate or kerosene emulsion and soap should be used against the harlequin cabbage bug and plant lice or "aphis."

**Unfortunate Farm Home.**  
 That home is indeed unfortunate that does not have a good green lawn and plenty of shade trees about it these warm days.

**Watering Garden Plants.**  
 One thorough watering is better for garden plants than frequent light sprinkling.

**Farm Accounts Help.**  
 Farm accounts make the farm more account.

**Growing Good Cabbages.**  
 Continued thorough cultivation is necessary to produce good crops of cabbage.

**Specific Remedy for Bugs.**  
 Poisoned bran is the specific remedy for cut worms and grasshoppers.
