OREGON CRANBERRIES ON MENU OF SAILORS

Through the efforts of Senator R. N. Stanfield the navy has made a ruling to the effect that canned cranberries may be placed on the ration list of the navy. Previous to this time, cranberries had been listed only in fresh form, and in consequence no cranberries could be offered for sale for use of the navy. The action of Senator Stanfield provides a new outlet for this already famous Oregon product. This announcement comes as a welcome order to the personnel of the Pacific fleet, for at holiday time many of the officers and men may be away in distant stations or in Asiatic waters far from that patriotic combination, turkey and cranberry sauce.

Late Pacific coast cranberries are now appearing on the markets. The local berries are readily distinguishable from their Atlantic cousins, the eastern cranberry, by the lighter color of the local fruit. This lighter color is now recognized as a distinct asset, as it gives the cooked product a much brighter red hue, and also creates a stiffer jelly. No cranberry could produce a sauce or jelly of finer quality than those grown in our own state.

The entire crop is now harvested, and the growers are now devoting their attention to the quality of their pack. Fine weather during September and the first part of October has permitted the fruit to be picked dry, and the growers are well pleased with the fact that they had such favorable weather during their harvest, as the keeping quality of their product decidedly improved thereby. The crop is fully up to earlier expectations, and with an acute shortage of the eastern cranberry the Oregon berry is already in great demand.

In the cranberry district at the mouth of the Columbia river is the bulk of Pacific coast cranberries

CRANBERRY RECIPES

Try This on Your Meat Grinder. CRANBERRY RELISH—Take the desired quantity of cranberries for use. Put them through an ordinary meat grinder. To each cup full of ground berries, add equal amount of sugar. Stir and mix thoroughly so that the sugar will melt and form a syrup. If it is to be used immediately, it is desirable to place on a radiator or the back of the stove, giving just sufficient heat to hasten the melting of the sugar, but under no circumstances should heat enough be applied to cook the berries in the slightest degree. Keep in a glass jar or an earthen dish. This will be found a delicious relish for general use at all times.

CRANBERRY SAUCE—One quart of cranberries, two cups boiling water, 1 1/2 to 2 cups of sugar. Boil the sugar and water together for five minutes; skim; add the berries and cook, without stirring (five minutes is usually sufficient) until all the skins are broken.

CRANBERRY PIE—Have ready a partly baked pastry shell and pour in sauce when cold, made by the above recipe. Put strips of pastry over the top, and finish baking in a moderate oven.

CRANBERRY JELLY—Cook until soft the desired quantity of cranberries with 1 1/2 pints of water for each two quarts of berries. Strain the juice through a jelly bag. Measure the juice and heat it to the boiling point. Add one cup of sugar for every two cups of juice; stir until the sugar is dissolved; boil

briskly for five minutes; skim, and pour into glasses, porcelain or crockery molds. Eight pounds of Cranberries and 2 1/3 lbs. of sugar make ten tumblerfuls of beautiful jelly. Always cook cranberries in porcelain-lined, enameled or aluminum utensils.
