Some points in our note, last week, concerning the death and funeral of Joseph M. Parker, of Dexter, call for correction. His son, Ellis R. Hunsaker, of San Francisco; and Mrs. Georgia Newcomb and Fred Parker, of Dexter. Rev. Harry Benton, of Eugene, conducted the funeral services.

4L SCALE NOT DISCUSSED AT DIRECTORS MEETING

By unanimous rising vote the employer and employee board of directors of the Loyal Legion of Loggers and Lumbermen, in session this week in Portland, ordered the following telegram to be sent to President Harding:

"The Loyal Legion of Loggers and Lumbermen, made up of many thousands of workers and employers in the northwest lumber industry, through its board of directors in session here, sends to you and to Secretary Hughes hearty endorsement of the disarmament conference and of the proposals of the American delegation. Our experience in industrial cooperation gives us confidence in the ultimate success of the methodists of frank conference that are now being used by delegates at Washington. We believe that an understanding and good will are proving effective for the ends of justice in industrial relations, they will also prove effective in international affairs." (Signed) Norman F. Coleman, 4L President.

A. C. Dixon, Booth-Kelly Lumber co. for employers.

A. D. Chisholm, Snoqualmie Falls Lumber Co. for employees.

This weeks session was the regular semi-annual meeting of the 4L board of directors, which is the legislative body of the organization. It consists of twelve employees and twelve employers elected by the membership from the twelve districts covered by the 4L which embrace the entire lumber producing territory of the northwest.

Norman F. Coleman, whose term of office was approaching expiration, was re-elected as president, by unanimous vote of the board.

J. B. Fitzgerald, who has been acting editor of the 4L Bulletin since last June was appointed editor of the publication.

Plant committees of employees and employers were authorized, every department of the industry to be represented.

4L sub-committees to facilitate the work of the official plant conference committee were also provided for.

Notwithstanding much spirited discussion all decisions of the board were

made by large majorities of the vote of both employees and employers. Two delegates, employer and employee from the same operation voted in opposition to each other on some question, and concurred on others, with good will prevailing at all times.

The question of wages did not come up and no changes in the present 4L scale was proposed or discussed.

President Coleman's address and the official reports showed much accomplishment by the organization throughout the past year and steady gains in membership.

Upon motion of A. C. Dixon, a signed statement was made by all members present declaring optimism and confidence in regard to the 4L and the lumber industry for the coming year.

A few of the directors were storm-bound in Spokane, Coeur d'Alene, and Bend districts, and telegraphed their instructions.

SLIGHT INCREASE IN S. P. CAR LOADING

A slight improvement in freight car loading is shown by the Southern Pacific company's carloading reports for the month of October. During this month 85,953 cars were loaded on the Pacific system as compared with 82,315 cars in the same month in 1920. The Portland division is responsible for a larger part of this increase owing to the increased lumber business in Oregon this year. The Salt Lake, Coast, Stockton and Los Angeles divisions also show increases.

Increased efficiency in carloading is also shown by the company's report. The average load per car in October, 1921 was 28.3 tons as compared with 26.5 tons in October, 1920, an increase of 1.5 tons per car.

REMEMBER to ask your grocer for Calumet Baking Powder and be sure that you get it—the Indian head on the orange label. Then forget about bake day failures. For you will never have any. Calumet always produces the sweetest and most palatable foods. And now remember, you always use less than of most other brands because it possesses greater leavening strength.

Contains only such ingredients as have been officially approved by U. S. Food Authorities, is the product of the largest, most modern and sanitary Baking Powder Factories in existence.

Pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. instead of 16 oz. cans. Therefore you get a pound when you want it.
