

TOWN AND VICINITY

The A. C. Travis family, including Hubert, spent Christmas day at the home of Mr. and Mrs. L. W. Zumwalt, niece and nephew of Mrs. Travis, west of Irving. Mr. and Mrs. W. R. Wing parents of Mrs. Zumwalt, and her brother Harold Wing, and his family, were also of the family party partaking of the Christmas cheer and fellowship together.

Spectacular scenes of a burning vessel and a mighty explosion destroying the ship while men and women and little children struggle for safety in damaged boats and pirate gangs get safely away with stolen gold but finds the tale of their fiendish acts is going to be told at last to their undoing. "Dead Men Tell No Tales", at Bell Sunday Jan. 1st.

Mrs. Anna Knox was removing during the fore part of the week from the Cogill residence, at the corner of 3rd and C, which she has occupied ever since the Cogills moved to Portland, to rooms on the second floor of the Sutton block. Mr. and Mrs. Cogill have been waiting until she could establish herself in new quarters, so that they could again occupy their old home.

Try our sodas, they are sodalicious at Eggimann's.

Miss Esther Furuset, who is teaching in the Sacramento schools, came up last Saturday evening, to spend the holiday vacation with her people near Springfield Junction. Her brother Elmer will probably return with her.

The banks, the sawmill, the flouring mill most of the stores and most of the shops observed Monday as a holiday.

RNWMP spells "Man Trackers": See the picture and find out why. Bell Wednesday, Jan 4th.

Hubert Travis, of Sacramento, California, came up last Saturday evening, to spend the holiday season with the home folks.

For private piano lessons see Miss Ruth Scott or phone 126J.

According to the latest word from

Mrs. Miserva Billings, who is with her daughter, Mr. Alexander, at Corvallis, she is not progressing very rapidly towards recovery. Her doctor pronounces her trouble a general breakdown, due, no doubt, to overwork. She may never again be able to carry on her household work as she used to do.

Gilbert Miller, of Oregon city, spent the past few days in this vicinity, visiting his sister, Mrs. John Robert son, at Donna, his daughter Evelyn, in Eugene, and his old friends here. His youngest daughter, Vera, accompanied him.

Start the morning right with a wholesome dish of Jasper's Breakfast Graham. Sold by leading grocers

Floyd Booth, son of Hon. R. A. Booth, committed suicide, by the use of a revolver, in the basement of his residence, last Sunday evening. Despondency caused by ill health, is supposed to have been the cause. He was born at Dratin, and was about 35 years of age. He leaves a wife and three children.

Wood for sale by National Products Co., the old Fisher-Boutin mill on Broadway street. F. H. Walker.

According to the Eugene papers, the members of the faculty of the university had about ten thousand students' examination papers to pass upon before their Christmas vacation would begin.

Then they tried to "frame up" Percival and, boy, how that lad from the west could fight! And in the end he picked the girl of his heart up in his arms and went back to the west again. See how they spend and save the dough in "The Spenders", at the Bell Saturday, Dec. 31st.

W. O. W. meets every Tuesday evening at W. O. W. hall.

Ernest Korn went to Roseburg, Saturday, for a Christmas visit with relatives.

Ira Bidwell, who is in the employ of the Fischer Bros., at Marcola, spent several days, covering Christ-

mas, visiting with his mother and the family here.

Fin Make, of Portland, spent the fore part of the week visiting relatives and friends here.

Miss Grace Male, now a teacher in the Portland schools, is spending the holiday season with her parents in Springfield.

Dr. S. Ralph Dippel, dentist, Springfield, Oregon.

A Florence visitor in Eugene, the first of the week, reported very high water in the Pacific ocean during the storms of the past week, with indications of an overflow if the weather did not improve.

The Lane county Pamona grange will meet with Irving grange next Saturday. A dinner and an interesting program is arranged for. Col. Mercer will speak.

Harold LeRoy, of Centralia, Washington, Milton LeRoy, of Pendleton, and Curran Purvance, a student of O. A. C., are spending the holidays at the home of Mr. and Mrs. J. F. Ellison, on the Lincoln highway south of Springfield. They are nephews of Mrs. Ellison.

"Dead Men Tell No Tales". Months spent in making scenes—players have exciting times on locations—explosion of sailing vessel unusual thrill—film attraction that establishes new standard in motion pictures. At Bell Sunday, Jan. 1st.

There will be a special meeting of the city council this evening, to consider the refunding bonds and other matters.

Alton Hampton, the well known Eugene merchant, has been forced into bankruptcy upon the petition of the creditors. The liabilities are given as about \$66,000, the assets as \$22,000. Gilbert Tyson has been appointed receiver.

Carl Phetteplace, who is a student in the U. of O. medical school, at Portland, visited his parents near Natron during the holidays.

The newly elected officers of the Methodist Brotherhood will be installed at the Methodist church next Sunday evening.

Mr. and Mrs. Robert Van Valzah and Gerald Van Valzah are up from Portland to spend their vacation with their mother, Mrs. A. B. Van Valzah.

Miss Frances Travis has been kept home from her work for several days by an attack of tonsillitis.

Mr. and Mrs. W. C. Burkhardt, of Albany, sister and brother-in-law of Mrs. B. C. Miller, visited with the Millers over Christmas.

Your Teeth

(By Rea Procter McGee, M.D. D.D.S.)

FILLINGS

Who invent d fillings for teeth and what the first fillings were made of will always remain a mystery.

We know that this work has been done from ancient time, but in recent years there has been such an alarming increase in caries (decay of the teeth) that the prevention of decay and the repair of carious teeth has become an important subject to everyone.

There are three general classes of filling materials: plastics, silicates and metals.

The plastics are the various forms of dental cements and gutta-percha. The silicates are a form of translucent cement that is an imitation porcelain. The colors of the teeth can be matched accurately and this material will last well, preserving the tooth and avoiding unsightly discoloration that would be present if a metal were used in the front of the mouth in a large cavity.

The metals used as filling materials are gold, and amalgam which is principally silver.

Tin and platinum were used for some years but they are now obsolete. A metal is used where there is great strain on the filling.

Amalgam, which is an alloy of silver made into a paste with mercury, is the most widely used filling in the world. It has done splendid service and is used in those cavities where appearance is a secondary consideration.

Gold is considered the most perma-

nent of the fillings. There are two ways of using gold; one is by malleting pure gold foil into the cavity and thus making the filling in the tooth that it is to protect, the other way is to make the filling outside the mouth from a very accurate wax pattern of the cavity. This is the most modern method and is called an inlay.

U. OF O. NEWS NOTES

University of Oregon, Dec. 27.—Young business men every where in the state have been given an opportunity to prepare for advancement by the Extension division of the university which is offering a new correspondence course in Banking Procedure and Practice.

This is a university course, making it possible for the student living any where in Oregon to receive instruction similar to that given in the same subject on the campus at Eugene. It was prepared by professor Franklin E. Folts, instructor in Business Finance in the university. It carries six term hours of university credit.

The course contains 32 lessons, as follows: Introduction; The Business Man and his bank; the organization and management of the bank; the business of banking; bank accounting; the receiving teller's department; paying and the paying teller; clearing and the clearing house; transits and the transit department; collections and the collectio department; foreign exchanges; accumulating exchange; selling exchange; summary of foreign exchange; your credit at the bank; loans and discounts; trade acceptances and their uses; the bank's investments; the fiduciary function; the bank as representative of its customer; the savings function and safe deposits; the advisory function; details of bank accounting; audits and examination; banking under the federal reserve act; choosing your bank.

BOVINE T. B. ATTACKED

In bovine tuberculosis eradication work Oregon stands in seventh place in the United States as to the number of cattle actually under federal and state supervision, and is second in number of animals once tested. There are in Oregon at present 67,273 cattle under supervision and 13,500 on the waiting list.

How to Grow Better Peas

The home gardener, who still clings to the idea that "peas is peas" and that one variety is pretty much the same as another, certainly ought to secure a copy of a book just off the press, which deals with peas and other desirable vegetables.

The book referred to is the 1922 issue of Lilly's Seed Annual. This guide from Western America's greatest seed house gives a wealth of information about a wide variety of peas that have been acclimated here. These varieties have been thoroughly tested and each has proved its superiority for certain requirements. With Lilly's Seed Annual in hand, the gardener can select just the varieties he wants, with the assurance that if he follows instructions he is almost certain of excellent results. Peas are easy to grow in the Pacific Northwest and if the directions given in this Seed Annual are carefully followed no one who has even a small plot of ground need be without this delicious spring vegetable. Peas are one of the most striking examples of the fact that produce fresh picked from your own garden has a flavor

which cannot be equalled by vegetables that have stood for a time after gathering.

This book also tells how to plant and tend the different crops of peas so as to have a succession of them from early spring until well along in the summer and gives suggestions how to prepare the ground.

The new issue of Lilly's Annual also contains a splendid array of other vegetables, all of which have been tested and proved by this reliable old house. There are sections, too, devoted to flower seeds with reliable information for users drawn from a long and ripe experience with the growing of vegetables and flowers in the Pacific Northwest. In addition there is a catalog of the most dependable fertilizers, sprays, bee and poultry supplies, etc.

Altogether, Lilly's 1922 Seed Annual is a book that no gardener, amateur or professional should be without. A copy is available free on request at your dealer, or from the Chas. H. Lilly Co., Seattle, Portland or Yakima. Get one today and prepare for early planting.
