The money thus received will go to the disabled veterans' fund.

A great revival of business and industrial progress is reported to be setting in in Alaska this season. It is shown in gold mining, lumber production, salmon, clam and crab canning, production and prospecting for oil, and in many other lines. The near completion of the government railroad is a contributing factor. Congress is expected to do its share by giving Alaska a more efficient system of government. A great increase of immigration for permanent settlement is expected.

Portland.—Contract let for a big tire factory in Kenton.

### Chamberlain's Colic and Diarrhoea Remedy.

Every family should keep this preparation at hand during the hot summer months. It is almost sure to be needed, and when that time comes, is worth many times its cost. Buy it now.

**Why Suffer from Rheumatism?**  
Do you know that nine out of every ten cases of rheumatism are simply rheumatism of the muscles or chronic rheumatism, neither of which require any internal treatment? The pain may be relieved by applying Chamberlain's Liniment, which makes sleep and rest possible, and that certainly means a great deal to any one afflicted with rheumatism.

An extra measure of power with every gallon drawn from this pump.

Gasoline, mixed with air, makes gas, and gas makes power.

How much power depends primarily upon how completely the gasoline vaporizes in the carburetor.

"Red Crown" vaporizes 100 per cent. Every atom mixes with many times its weight of air and combusts cleanly and powerfully, leaving a minimum of carbon residue on spark plugs, valves and cylinder heads.

That's why you get more power and mileage and a sweeter-running motor when you use "Red Crown."

Fill at the Red Crown pump—at Standard Oil Service Stations, at garages and at other dealers.

Come in and look at this tire and let us tell you more about it.

Prices on Hartford Passenger Car Tires and Tubes, effective May 8th, are not subject to war-tax, the war-tax having been included.

THE sum of \$10.90 never bought so much tire value as it does today in the Hartford "H" Tread 30 x 3 1/2.

A value that isn't just in the price, but greater than ever before, because of the price.
