Such extensive building activities as there is now in this country has not been known for a number of years.

Williamson county, Illinois is now the sore spot on the body politic of the United States, and it is a sore spot indeed. The country no doubt would be the gainer if it could be cut out al-

together. But we cannot exactly deal with such matters that way.

There can hardly be said to be any such thing as a national "unemployment problem" in this country now. Such unemployment as there is, except in individual cases such as we always find, is almost limited to volun-

Your Neighbor's Boy

That boy of your neighbor's will surely win success. In fact he is practicing for success now.

It is a good plan to practice if you want to learn to do any thing well—so this boy is training for success.

His parents know that it costs money to keep this lad in clothes, etc. They find that it is a good scheme to give this expense money to the boy and let him plan how to get the best results with it. If he spends too much one month he feels the pinch during the month that follows.

He is anxious to earn all he can. He thinks before he spends and a neat savings account is growing as further proof of the happy future of the boy.

And a program like that will bring larger success to any one who really desires to win. How about your own boy?

tary unemployment, including strikes, mostly unjustifiable.

If you think a man has a "cause," and you "sympathize" with his cause, that may be all right so far. But when he breaks over all the restraints of law that happen to be in his way, tramples the law under foot with scorn, commits outrageous crimes and glories in them, he ceases to be entitled to be regarded as an honorable citizen. He is a common criminal now, and a source of danger to the country, and must be dealt with as such. It is time now to bottle up your "sympathy," put it on ice for a while, and say no more about it until the crime is dealt with. After that, you might get our your bottled sympathy and look into the man's "cause" again, if he gives evidence of a sincere purpose to return to the ranks of honorable, law-abiding citizens, again.

The figures show that the ac-

tual running expenses of the United States government for the fiscal year which ended June 30, were less by \$1,700,000,000 than for the preceding year.

The people of the United States should be educated to regard the man who makes his living by promoting strikes as a public enemy.

Bread-Making is an Accomplishment

Herein lies the whole secret to good bread.

The average housekeeper does not realize that the years and proper conditions have more to do with good bread than flour—as long as the flour is an all hard wheat patent of uniform quality.

NORTHWEST flour makes wonderful bread if an accomplished housekeeper makes it. Try it. Your groceryman will gladly recommend this home product.
