Will Rogers in "Doubling for Romeo." You have seen Will as a cowboy, as a hobo and as a Swede sailor—here he is doubling for the greatest lover the world has ever known. And, take it from us, as a heavy lover, Will creates the sort of sensation that comes but once in a lifetime. At the Bell Saturday.

Mrs. W. C. Rebhan went to Seattle Wednesday morning for a three-weeks visit to the doctor's brother.

Lost. Key ring with about 5 keys, including one Ford key. On or about June 12. Leave at News office and receive reward.

The News reported last week that Mrs. Andrew Nystrom was in the Mercy hospital for treatment. Her trouble was high blood pressure, with a tendency to paralysis. She had been

affected for several weeks, but did not call in a physician until June 24th. It was not a case which called for surgery, but it was a case from which quick recovery cannot be expected. She is still in the hospital.

Dr. S. Ralph Wipple, dentist, Springfield, Oregon.

Miss Pearl Nelson has been at the home of her aunt, Mrs. H. L. Edmondson, near Goshen, for the past two weeks, recruiting from the effects of a recent operation.

"The Handicap," which comes to the Bell next Sunday is a thoroughly bred picture with a real race horse story.

M. and Mrs. R. R. Moon went up to McCredie Springs last Monday, to spend several weeks, hoping that the rest would prove beneficial. As they crossed the railroad crossing at Lundax, a front wheel of his car crumpled and caused the car to turn upside down. Neither Mr. or Mrs. Moon were injured, and they continued their journey as soon as the broken wheel was replaced. Vern Wooley and Bill Ham were returning from McCredie Springs, where they had spent Sunday night, and arrived on the scene just a few seconds after the accident.

## You may increase your engine power 20%

Too heavy an oil, or one lacking in certain qualities, may reduce the power delivered to the wheels of the automobile as much as 20%.

The ideal oil is the thinnest oil which will keep the bearing surfaces of the mechanism separated.

Providing this oil has "oiliness," stability and purity, it will give perfect lubrication, and permit the development of the maximum power, speed and gasoline mileage of the car.

"Oiliness" — Stability — Purity

Zerolene meets the conditions perfectly. It has great "oiliness," due to the crudes from which it is made, and our own patented process of high vacuum distillation.

It has great stability, as a result of which it resists engine heat and forms only a minimum of carbon of a soft, flaky nature which blows out with the exhaust.

And it is pure. This company has always considered the removal of all detrimental properties and compounds as essential in making Zerolene.

Zerolene of the correct grade gives perfect lubrication and permits the development of the maximum power, speed and gasoline mileage of the car.
