"It will be another proof that Oregon is 'the fool of the family' of western states if the people adopt a state income tax."—Manufacturer.

There seems good ground for believing that the chief object the Russian soviet government had in view in sending delegates to Geneva and the Hague was to sow discord among the western nations and prepare the way for its revolutionary propaganda.

It has only been a few months since the "unemployment problem" was one of the great problems of the country. Now, according to a statement recently issued by the department of labor, one of the great problems the country is facing is that of a shortage of labor. Of course

there must be, at any time, in a broad, populous and diversified country like this hundreds of cases in which the job and the man to fit it have not yet been brought together.

By the action of a joint committee of the regents of the two institutions, the tuition fees of non-resident students in the U. of O. and O. A. C. has been raised from \$60 to \$105. Students who have commenced their course under the old rate will be allowed to complete it at that rate.

The Southern Pacific company has inaugurated the policy of bringing suit against the owners of motor vehicles which damage its trains in collisions for which they are held to be responsible. That is only dish-

OUR SERVICE— BANKING BY MAIL

For the convenience of patrons who live at some distance, and cannot often come to Eugene, we make possible banking by mail. You may open a Savings, Commercial, or Time Deposit Account, and both deposit and withdraw money.

It is a simple thing to do, and we will be glad to furnish all details to those interested. And we're always glad to give investment advice, or solve business problems for those who live in the country or other small towns.

As is well known, the Biological Survey of the United States Department of Agriculture has for a number of years been carrying on a vigorous campaign for the destruction of such wild animals as prey on live stock. These operations have been seriously hindered in some parts of the northwest by the stealing of the hunters traps. This lays the offender liable to a fine of anywhere up to \$5,000, or a jail sentence, up to five years, or both.

Studies of the life and habits of the 17-year cicada or locust have estab-

ing out to the gander the sauce which heretofore has been fed exclusively to the goose.

Noah W. Cooper, who seems to be the only Democrat named on the ballot for the coming primary in Tennessee, for U. S. senator, declares that he "is not running against anybody but satan and all his works." His competitor is at great disadvantage, because his name does not appear on the ballot; but any admirer of his or adherent of his policies will have the privilege of writing it in. Many a voter no doubt does that, in a way that is understood between him and the candidate, but not recognized by a mixed election board

As to the contest before the courts between Mr. Hall and Mr. Olcott, the question of interest to Republicans is not whom they would prefer for governor. They had their chance at that in the primary. The question of interest to them now is, who is rightfully entitled to the nomination? Having cast his ballot in the primary if he did cast one, every good citizen should now desire that the true result of the primary shall be ascertained. He will have a chance to express his choice again in November. The question now is whether his choice shall be between Mr. Hall and Mr. Pierce or between Mr. Olcott and Mr. Pierce.

All Thrifty People

insist on getting products manufactured at home from their dealers—they not only feel it their duty, but they know the real economy in using home products. The NOXALL Brand of poultry and dairy feeds and NORTHWEST flour are all home products.

It always pays to use NOXALL feeds—better quality means more feed—and then at a saving.

The best groceries in town recommend

lished the fact that there are about 30 distinct broods of them, inhabiting different sections of the United States and appearing in different years, but each at intervals of 17 years. A large brood is due to appear this year in eastern Iowa and other broods in southern Wisconsin, in Illinois, in Indiana and Southern Michigan. There will be but few of them from 1924 to 1928.

A French baby was born 6,000 feet up in the air, a few days ago. While it was a French baby, it was born, not exactly on Italian soil, but in Italian air. Its mother, Madame Georges Breyer, a "lady of Lyons," chartered an airplane for a hurried trip from a vacation resort to Naples, in anticipation of the arrival, but the machine was not quite swift enough. She purchased the machine, so as to preserve the babe's birthplace. That incident ought to figure in the society columns as a "birth in high life."

A girl was born to Mr. and Mrs. Morris Hills, of Jasper, at Mercy hospital, Eugene, yesterday afternoon. Dr. Rehban, on his recent visit to his sister at Seattle, had an opportunity to attend the clinic of Northwest Surgeons. The session lasted about two weeks, and was attended by several famous surgeons of the United

States and England. C. L. Scott, accompanied by Mrs. Scott, went to Portland today, for another season of treatment in a sanitarium.
