

TOWN AND VICINITY

The summer session term of the O. A. C. closed last Friday, July 23. The total registration was 1100, the largest yet recorded. Of these \$36 were from Oregon. Bonita county furnished 197, Multnomah 74, Linn 26, Lane 10.

A forest fire bulletin, issued by the Western Forestry and Conservation association, of Portland, August 1, reports the conditions in the northwestern state with reference to fires as the most troublesome since 1910. The actual damage from fires thus far, however, has not been so great as in some other years. About 3000 trained fire-fighters and patrolmen have been continuously employed since the drought set in, under the direction of federal, state and local agencies, besides casual and volunteer efforts.

Rev. Harry Neat and wife will be at the Eugene Bible Standard mission on August 10. Rev. Neat will lecture on what he saw at Mrs. McPherson's meetings at Oakland California.

Everybody cordially invited. No collections.

Rev. T. A. Griffith, of Lakeview, Oregon, will preach at the Baptist church next Sunday, Morning and evening.

Dr. S. Ralph Dipple, dentist, Springfield, Oregon.

Mr. and Mrs. Alfred J. Morgan and daughter Mildred left Tuesday morning for Portland to be gone several days. They were accompanied by Mrs. Morgan's parents, Mr. and Mrs. E. L. Coffin and Mrs. A. E. Young of Eugene. They took a trip up the Columbia highway on Wednesday and on Wednesday evening Mr. Coffin left for his home in Minneapolis.

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. Catarrhal Deafness requires constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and restoring normal conditions. Circulars free. All Druggists. F. J. Two kinds of friction

It has been proved that as much as 20% of the power delivered to the driving wheels may be lost through friction, due to the use of an incorrect oil.

This friction may be of two kinds—the friction of metal on metal, due to the failure of the oil to preserve a lubricating film between the bearing surfaces, or the friction of oil on oil—the internal, molecular friction of the lubricant.

Too heavy an oil, or an oil lacking in "oiliness"—the quality that makes it cling to the bearings while at the same time offering a minimum of internal or fluid friction—constitutes a direct drain on the available horsepower of your motor.

The right body at all operating temperatures

Made from carefully selected crudes and scientifically refined by our patented high-vacuum process, Zerolene has great "oiliness." It clings to bearing surfaces, while offering in itself a minimum of frictional resistance to the engine power.

Zerolene maintains the right lubricating body under all conditions. As the engine gets hot, bearing clearances decrease. Analysis of Zerolene shows that the variations in its body, at the various engine temperatures, follow in close relation the decrease in bearing clearances.

Because of their "oiliness," stability and purity, Zerolene oils give perfect lubrication and help to develop the maximum power, speed and gasoline mileage of the car.
