at home—that's the strongest statement we can offer about our ice cream. When you can get cream like ours which compares in quality and flavor with your own delicious, creamy home-made, why bother with making it at home? The cost is about the same and you save all the fuss and annoyance.

METHODIST CHURCH BUSINESS DATA

Reports at the Methodist quarterly conference, Monday evening, showed a decided gain in membership and Sunday school enrollment. It is hoped that the wiping out of the balance on the parsonage can be reported to the annual conference.

The Centenary drive of three years ago now shows a shrinkage, which has been prorated, and amounts, for the Southern Oregon district, to \$2800. As there are 28 pastors in the district, Rev. T. D. Yarnes pledged his hundred, even if he should have to pay it all out of his pocket. Of course, the members of the church propose to help lift this burden, and if possible, increase his salary enough to help purchase a car for his far-flung parsonage.

be impossible to detect them. Field inspection is therefore necessary and no seed should be used from any field unless the plants are as a whole uniform, true to variety, vigorous and practically free from such diseases as wilt, blackleg, mosaic, late blight, etc.

Statistics gathered by Judge William N. Gemmill, of Chicago, and furnished to the committee on law enforcement of the American Bar association show that for the year 1921

St. Louis led all other of the great cities of the United States in the number of murders and homicides in proportion to population. It had 426, or 53 for each 100,000 of population. St. Paul had the fewest proportionally, New York was next and Chicago third. Los Angeles and Washington were among those having the largest number according to population.

Cause of Appendicitis.
When the bowels are constipated, the lower bowels or large intestines become packed with refuse matter, that is made up largely of germs. These germs enter the vermiform appendix and set up inflammation, which is commonly known as appendicitis. Take Chamberlain's Tablets when needed and keep your bowels regular and you have little to fear from appendicitis.
