GIRL'S STATEMENT WILL HELP SPRINGFIELD

Many women will profit by the following statement of one of their sex: "I was afraid to eat on account of stomach trouble. Even rice did not agree. After taking Adler-ka I can eat anything." Adler-ka acts on BOTH upper and lower bowels, removing foul matter which poisoned stomach. EXCELLENT for gas on the stomach or sour stomach. Guards against appendicitis. It brings out poisonous matter you never thought was in your system. Flanory's Drug Store.

The body was shipped to Springfield, and the funeral was held at Walker's chapel Sunday, September 10, at 2:30 p. m. The services were conducted by Rev. Thos. D. Yarnes. The hymns sung at the services were those two which had in her latter days been favorites of the deceased: "God Will Take Care of You" and "Lead, Kindly Light;" and "The Far Away Home of the Soul," which had been a favorite hymn of Mr. Knox. This was early in June, and he had lingered between life and death all that time.

Mr. Vaughan was 45 years old. He was a son of A. L. Vaughan, a farmer who has resided for many years in the neighborhood of Wallowville.

village adjoining the old town, with provision for a business district, school and all that goes to make up an independent town, complete in itself. Of course this is bound to worst the present town. What there may have been in the previous relations between the Long-Bell company and the town of West Kelo to justify this action does not appear in the news reports. In a mass meeting at

tended by about 1000 citizens of Kelo and West Kelo, one night last week, it was almost unanimously voted to invite the Long-Bell company to unite with them in building up one big town, and offering to give the company the privilege of giving it whatever name they wished.

Under the Reclamation Act adopted twenty years ago, the government has expended about \$122,000,000 on the various projects covered by it. In the last ten years, crops to the value of about \$426,000,000 have been raised on the land irrigated by these projects.

Make a note of this. The coal problem in this country is never going to be settled until the number of men

engaged in the industry is reduced just about one-half. We cannot have two million workers engaged in an industry that requires only one million, and all making a good living out of it, and have conditions as they should be. An intolerable injustice is done the workers in other industries and to everyone else.—Ft. Wayne News.
