Tooth Brush Value

When you realize that a beef thigh bone, twelve inches long and four inches in diameter, will cut only two to four perfect tooth brush blanks, or handles, and that the bristles, which are hand drawn and fastened by wire, are at first fully three inches long, you will wonder how they can be sold at such low prices. Every tooth brush which we sell at

BIG POWER on the HILLS/

Make a fresh start—get a clean tankful of "Red Crown"—and then watch how your engine performs.

Watch it on the hills. Every drop of "Red Crown" vaporizes rapidly and uniformly in the carburetor and is consumed completely in the cylinders. You get a continuous stream of power—more mileage at lower cost.

"Red Crown" is uniform in quality—you won't need to bother with carburetor adjustments if you fill your tank with "Red Crown" and nothing else.

Fill at the Red Crown sign—at Service Stations, garages and other dealers.
