MAN GIVES WIFE GLYCERINE MIXTURE

She had stomach trouble for years. After giving her simple buckthorn bark, glycerine, etc., as mixed in Adler-ika, her husband says: "My wife feels fine now and has gained weight. It is wonderful stomach medicine." Adler-ika acts on BOTH upper and lower bowel, removing foul matter which poisoned stomach and which you never thought was in your system. EXCELLENT for gas on the stomach or chronic constipation. Guards against appendicitis. The impurities it brings out will surprise you. Flanery's Drug Store, Springfield, Oregon.

ceptacles provided for them by the department every second, 23,334 every minute and 12,600,000,000 in the course of a year.

Calgary, Alberta, is building up a municipal zoo of animals and birds captured within the city limits. Deer, lynx, coyotes, a young mountain goat and an American eagle are mentioned by a Canadian publication as recent additions.

One hundred bushels to the acre is said to be a frequent yield of oats in the region of Brandon Manitoba this season.

According to Capper's Farmer, there are 25 Holstein cows in the United States that have produced 30,000 pounds or more milk apiece in one year.

Petroleum made Pennsylvania famous, and Pennsylvania still leads in the number of oil wells. It has 67,000 of the 300,000 wells in the United States.

A dispatch from St. Louis tells of one Albert Kramer, of Holland, ar-

rived from Springfield, Illinois, trailed by an immigration inspector, who was seeking to ascertain if Kramer is physically fit to remain in the United States. Of course he is physically unfit. In view of the present housing shortage, there is no room in the United States for such a he. There is too much crowding for the "higher up" places now. However, if no way can be found to legally deport him he might be employed in the forest service as a lookout to take the place of an airplane.

It is reported that during the season of 1921, 200,000 deer, 10,000 bear and 8,000 elk were killed in the United States. Of the deer, 40,000 were killed in Michigan and Wisconsin and 10,000 in New York.

The gross business of the Southern Pacific company in Oregon aggregated \$20,500,000 in 1921, of which \$18,800,000 was expended as taxes and operating expenses mostly in Oregon, leaving a net return of \$1,700,000, or a net return of 19 per cent on the \$90,000,000 capital investment of the system in Oregon. As against this \$1,700,000 taken from the state for bondholders and stockholders of the company the system expended approximately \$5,000.00 for ties, timber and other supplies, aside from the \$18,800,000 operating expenses. On the whole, it may be said that the railroads leave all their Oregon revenues in Oregon and spend money far above their revenue return. The wage expense of the Southern Pacific alone in Oregon is over \$10,000,000 a year.

A Japanese steamship company is proposing to make regular trips between Japan and Coos Bay direct with one of its steamers for lumber cargoes.

Poor as Europe is, and badly demoralized as her domestic, industrial and commercial affairs are, she has, in the past two years, been a fairly good customer of this country, after
