FIGURES TALK

AND one thing they say is that bank deposits in hard times are larger than in prosperous times. Sounds queer, but in this case at least, figures don't lie.

Always a period of depression follows one of easy money, and with it comes repentance for the way in which money was wasted. And so people make a big effort to save, knowing what a little more money would mean to them right now.

The moral: open a "Nationalized" Savings Account now.
