WOOD DISTILLATION PROCESS IMPROVED

Present Method is Perfected
By Professor Stafford of University of Oregon

Prof. O. F. Stafford, head of the wood chemistry department at the University of Oregon, has perfected a process for utilizing wood waste. It is a combination of chemical and wood distillation processes. In the new process, much more of the wood waste will be utilized. Its main uses are in the lumber industry and other co-products. The Professor's success has been such that the new process will be utilized in the production of many products.

COMPENSATION ACT GOOD SAYS L.L.L.

Local lumberman asks that Nevada law be changed in Act by Legislature

By "Deke" McKenzie

Local lumberman, L. L. L., has asked that the Compensation Act be changed. He feels that the current law is unfair to the lumber industry. He is concerned that the law is too lenient and that it does not provide adequate compensation for the workers.
