A trip to the fair would be incomplete without stopping to see the fine needlework in the small pavilion just to the right as one enters the grounds. Here may be seen needlework in which men have contributed to help beat the women at their own game. One apron with the insignia of the United States Navy was made by a service man for his mother during the war. Wonderful knitted bedspreads, dresses beaded and embroidered, pillow cases and towels—indeed, all the ordinary sorts of sewing and many oddities are to be seen.

I used to mourn about the trials of my ancestral pioneers.—I've filled a million two-quart vials with briny, sympathetic tears. . . . I've wept, because of tribulations through which our early settlers went, when I would hear the moans of our early settlers, about the old log-cabin gent. I've sobbed at how he slew the weasels, and skinned his thumb and cut his toe—an' suffered forty kinds of measles from wadin' miles of heartless snow. . . . O, each installment made me rivel, and each recital fetched the brine, and I would set around an' snivel, about them old kinfolks of mine. . . .

But—times has changed, and I'm reflectin' along the lines of present dread. . . . I've saw some things I weren't expectin'—that any hour could knock me—dead! We've got the crazy benzine flivver—We've got the bull-necked road-hog, too.—We've got the germs that eat our liver—we've got the bug that starts the flu! My days an' nights is spent in terror.—I'll never reach a hundred years—I'll swaller down my bald-face error, about them happy pioneers! I've studied it from every angle — I've turned the subjeck inside out, and I have learnt, beyond a wrangle, that I'm the one to weep about!

Yr. gummy Uncle John.
