How Constipation Can Be Cured

The ordinary American meal is a dietetic horror, not merely as the result of our bad cooking but as a result of wrong food combinations, commercial refinements and adulterations.

Because meat, boiled potatoes, white bread and white sugar are the four corners of our dietetic temple, CONSTIPATION and ACIDOSIS are our two basic national diseases, from which most other diseases come.

We are a nation of starch drunkards, we carry an overload of carbohydrates which, if reckoned in calories, ought to run a STEAM ENGINE, and when we are not stuffing the fire-box with "ENERGY PRODUCING" carbohydrates, we are filling it with an excess of meat proteins, which is even worse.

Whole grain cereals we hardly use at all, we boil the organic salts out of VEGETABLES and pour the precious liquor down the sink.
