## STAR BEATING ALL IN HILL CLIMBING RECORDS

Oakland, May 11.—Because of the tremendous interest aroused among automobile fans who have been following Star's great power campaign, in which practically every hill-climbing record of note in the west has been beaten, and during which some of the "unconquerable" have been climbed in conclusive power performance, the entrance of two Star cars in the Los Angeles-Camp Curry Economy Run, the great annual "miserly" contest, will be watched with great interest.

The two cars entered by the Durant Motor company of California in the event are a standard touring car and a sw coach model. The touring will be driven by Julius Dusevoir, well known Durant factory testing engineer, and the coach by another driver yet to be named.

The results will demonstrate conclusively, according to automotive fans, as to whether power and economy go hand in hand in motor construction.
