DERAILED CAR DELAYS
AFTERNOON PASSENGER
The eastbound passenger train, No. 92, which arrives in Springfield at 2:44 o'clock in the afternoon, was delayed two hours Tuesday when a car on the Oakridge freight, eastbound, was derailed at Jasper. A Southern Pacific wreck train was dispatched to the scene of trouble following the derailling, but it was late in the afternoon before the way was cleared for the passenger train.

COUNTY EXTENSION WORK WINS UNITED APPROVAL

Cooperative work of the state college and Oregon counties through the county extension agent has met with even more than unusual approval by the people this year, reports F. L. Ballard, state county agent leader, following interviews with several county courts. The number of county agents cooperatively supported will be greater next year than this, judged by present indications.

All of the 35 college-county representatives maintained last year provided for in the tentative budgets made out by the county courts for 1925. In addition to these a county agent has been provided for in Polk county, a county club leader in Clackamas, and an assistant county agent in Umatilla, the state's leading agricultural county.

The widespread adoption of federation wheats east of the Cascades, development of alfalfa as a forage crop in the Willamette valley, and a big increase in vetch acreage in the coast counties, are three pieces of extension work that have attracted much attention during 1925. Due to the three-year demonstration program carried on by the extension service, the acreage of federation

wheats totalled approximately 400,000 this year.

The average increase in yield from federation is 5 bushels an acre, representing a net gain of 2 millions bushels of wheat in the Oregon crop. The proceeds of this at the prevailing good prices are enough, the farmers point out, to pay the cost of the county agents well into the future.

A hundred small patches of alfalfa were started in Lane county this year and practically all were successful. In Washington county alfalfa is established as regular crop on more than 600 farms.

Farmers in Lincoln and Clatsop counties, cooperating with county agents, have demonstrated that vetch can be grown there successfully, and the acreage of this crop has jumped from practically zero to six hundred acres in the last three years.

Dexter Residents in—Mr. and Mrs. H. B. Hickman of Dexter were business visitors in Springfield Monday.

A Carload of

GULBRANSENS

GULBRANSEN
The Registering Piano

Have you ever stopped to think what a Gulbransen means to the home where there are children?

Children are imitative. Draw a picture for them and they try to duplicate it. Tell them something and they will repeat it. It is their nature.

And so you will find them trying to play by hand the pieces they hear on the Gulbransen. A good class of music that would otherwise be way out of their reach is thus brought within their range.

If you want your children to have the advantages that an understanding of music gives them, remember no instrument you could place in your home has greater educational possibilities than the Gulbransen.

Give them the benefits that the children of your friends and neighbors have.

A Gulbransen will take the work and monotony out of their music study.

A CARLOAD shipment just in! New, handsome instruments—as bright and clean as crisp dollar bills! This car of Gulbransens will not last very long. People realize that Gulbransen music should be in every home.

We invite inspection of the Gulbransen not as an ordinary player-piano, but as a Registering Piano that registers your own expression, through the pedals.

No need to know music, no need to play by hand—you can express yourself musically, as hundreds of thousands of others are doing, through the Gulbransen Registering Piano.

Easy Terms

Gulbransen Registering Pianos (playable by hand or pedals) \$450, \$530, \$615, \$700; Reproducing Pianos (playable by hand, by pedals, or electrically) \$770, \$855, \$940; Upright Pianos (playable by hand only) \$295, \$350, \$440. Sold everywhere in the United States at the same prices, freight prepaid; one set of four Gulbransen Instruction Rolls included. Cash selling prices plainly branded in the back at the factory. Also sold on a convenient time-payment plan, the details of which we will gladly give you.

The conservative and truthful statements in our advertising and the strictly uniform Gulbransen prices, plus the fine quality of the product, have won us the confidence of the people of this city.

The Registering Piano
The Gulbransen Registering Piano of today is the world's latest achievement in musical instruments.

It stands absolutely alone in the artistic results it produces and the ease with which they are obtained. It is played by music roll and pedals, as are other instruments of its type, but there the similarity ends.

The Gulbransen registers one's exact "touch" on each note. It can be played with all the feeling, life, the delicacy of the very finest piano-music you ever listened to.

Ordinary hand-playing can no longer be compared with Gulbransen-playing. Only the most artistic piano playing can be placed in the same class as correct playing of the Gulbransen.

Because these are the facts, we are insistent that the Gulbransen be not confused with other instruments of the same type. We challenge investigation of it as an Easy-To-Play Registering Piano that registers your exact touch, that registers your time, that registers your expression.
