Plumbers

We furnished the Plumbing for the new bank building and wish to congratulate the officers and directors on the excellent structure.

LET US DO YOUR PLUMBING.

THE FIRST NATIONAL BANK OF SPRINGFIELD

Established in 1905.

is now located in its fine new banking house at the corner of Fifth and Main streets. Nothing has been spared to make this a modern and most up-to-date bank building—one designed for the convenience and comforts of our patrons as well as a safe place to deposit their money and other valuables. The latest vault and safety deposit box fixtures and appliances have been installed and with the protection of heavy concrete walls makes a fire and burglar proof bank.

The growth and prosperity of Springfield has been closely identified with this institution—The First National bank. The new building is a monument to the faith and confidence the stockholders have in Springfield's future.

Visit The First National Bank in its new home. You will find not only a new building but also up-to-date banking methods in use.
