HEALTH BOARD ENDORSES SPRING CLEAN-UP

With spring comes house cleaning. "Clean-up" campaigns are now in order. It is an excellent plan to have the streets, alleys and yards cleaned especially in the spring, but the benefit of the clean-up will depend entirely upon the efforts of individuals to keep up the work during the entire year. To maintain healthy, sanitary conditions either for the individual or the community does not require a great effort, but it does require a more or less continuous effort.

Cleanliness of person and premises is to a certain extent a protection against disease. A clean, healthy environment has a wholesome effect, while a dirty, unsanitary environment is degenerative in its effect—physically, mentally and morally—producing poor citizens. Anything which raises the standards of clean and healthy living will pay financially. There is nothing more expensive to the community than filth and disease.

A favorable sentiment toward better living and health has grown in this state until now there is in almost every community a clean-up spirit. An annual clean-up does not suffice any more for a clean city than a yearly bath would for a clean individual. Regular inspection of the milk and meat supplies, restaurants and soda fountains is necessary to insure safe and clean foods. The streets, alleys and backyards should be kept clean by continuous effort and vigilance. In this way you will raise the standard of living in your community. Desirable citizens are attracted to live where the conditions are favorable to health and contentment.

All manure piles whether around houses, barns, hog pens or chicken yards should be removed at least twice a week, as they are the principal breeding places of the fly. Lime is one of the cheapest disinfectants for general use, and should be liberally used in the disinfection of manure grounds, garbage cans and the like. Precautions taken against flies now will save endless work and worry later on.

Take pride in the general appearance of your community, and keep your own place continually cleaned up. Remember general cleanliness is an outward indication of sanitation. It is the best and cheapest advertisement your community can have.

A Surprise for Mrs. Spurling

So changed were the floors that Mrs. Spurling, back from a week's visit to the city, could hardly believe it was her own house. Jim had had Frank Lovejoy, the painter, get busy with Acme Quality Floor Paint and Varnish. The floors were refinished and beautified. In fact, all the woodwork smiled a welcome. And Mrs. S. said if a week and a little Acme Quality could make such a difference, she'd go away again and not come back for a month.
