NATIONAL INDEPENDENCE

as established by our inspired forefathers has made possible an individual independence of which not all of us have yet learned the true meaning.

Noah Webster can often set us aright when we become confused as to issues.

He defines it thus:

Independence * * * * Not subject to the control of others * * * * Not relying or depending on others * * * * acting and thinking for one's self * * * * FREE * * * * etc.

We think the great Webster in those few words gave us the best bank advertisement ever written.
