**SALLIE'S MOVIE CAREER IS BRIEF**  
In a few moments we found ourselves in the large private office of Roland Simmons, the motion picture director who was to make the picture in which Carmen had promised me a part. I had never seen such luxury in an office before. With its ivory paneled walls, open fire-place and magnificent appointments it was more like a lounge or a club, than a place in which to transact business affairs.

A small man, with glistening black hair and sharp penetrating eyes was seated at the desk but arose with alacrity at our approach. I noticed a dissipated puffiness about his eyes as he came close to us and the innumerable lines about his mouth suggested that he was the sort of man who had always lived each moment to its fullest extent and snapped his fingers at any proposed law of health.

Carmen introduced us and he was eager to show his appreciation for what he called a "perfect type."

"By the way," he said after a few moment's enthusiastic talk, "the mob-scene, in which you're to take a prominent part is waiting for you on the floor below and in the meantime leave me with Sallie so we can get all the details of her meteoric career straightened out." He smiled pleasantly at Carmen who immediately started for the door.

The moment she had gone a complete metamorphosis came over Mr. Simmons' face. When he spoke it was in an affectionate tone rather than that of a man to whom I had just been introduced.

"Why, you'll have Gloria Swanson and Mary Pickford screaming for help," he announced, "yours is an adaptable type and especially suited for those fairy princess things that are going so big."

"Oh do you think so, really?" I asked, "you're very flattering, to say the least." To tell the truth I was frankly embarrassed at his manner and said the first thing that came to mind.

"Your features are just right—not too small to photograph well and your eyes and hair will be a knock-out!"

I thought of all the girls all over the world with flaming ambition to "get in the movies." Why, it wasn't such a difficult matter after all, I thought.

Mr. Simmons came closer to my chair and tilted my face up to the light. His fingers were unpleasantly moist, and I thought there was an unnecessary amount of familiarity in his touch, but I reassured myself that he was just impersonally enthusiastic over the discovery of what he continued to call a "perfect type."

"I love everything about you, Sallie," he said, at the same time lowering his voice, "I've never seen a girl who so completely bowled me over at first sight. Now, listen, Sallie dear, (I loathed the way he called me Sallie and I drew back in my chair unconsciously shrinking from his de-vouring eyes.)

"Oh, I say I don't want to be crude or anything like that, but—you're just my kind of a girl!"

"Please—I'm married. Mr. Simmons," I stammered.

"Isn't that a strange coincidence?" he beamed, "so am I."

I moved restlessly in my chair. "Now listen Bule-eyes," he held both my hands in a tightening grasp. "I'm not going to play the part of a villain and put a lot of 'ifs' in the contract and you may depend on it, see? That's old stuff and isn't being done so much except in those burning serials on questions of heart and home," he hurried on, "but I don't see any reason why we can't be the best little buddies in the world—you know—pals."

"Yes, I know," I murmured and there was a hint of bitterness in my voice. That was just the trouble I knew. In a flash of memory the scene had changed. The director's office was a small inn in Florida and Roland Simmons was another man. That had been four years ago (how long ago it seemed) and the man who had sold the same things that the motion-picture director had just finished saying was Warren Fisher. "The best little buddies in the world—good pals—broad-minded-friendship—" I shuddered involuntarily as I recalled his identical words.

Perhaps this sort of thing was what Curtiss had meant when he had tried to persuade me not to come to New York.

"Slime girls could get by, Sallie, but you can't to save your life. You charm men," he had said, "by an indescribable something in your manner, in the way you talk or even in the way you come into a room. You're unconscious of it, I know," he said when I had laughed at what I thought was jealousy on his part, "but you're not the kind of a girl that can go wandering about alone."

I was beginning to understand what he had meant. I saw the whole picture before me,—if I kept on with Mr. Simmons—just as plainly as if it had

already taken place. His growing familiarity, his sly, risque remarks, and the little luncheon dates that would be necessary in order to "talk over the part." From experience I had learned that unfortunately friendships between men and women have an annoying way of outlasting still the human emotions are not disciplined at will—it was all so confusing, disheartening and difficult to understand.

I began to draw on my gloves, I was regarding the morning interview as closed. Its outcome had been a keen disappointment but I tried hard to look at it in a philosophical light. I would not even be offended at Mr. Simmons. That there were a great many girls who expected just that sort of attention I had no doubt. Perhaps before I had loved Curtiss, I too, would have considered the relationship his manner suggested, a harmless, flirtatious affair—a humorous little episode about which I could have laughed.

"What's up, Sallie? You're not peeved, honest I didn't mean to—", "No, I'm not peeved," I declared, "really I'm not. But I've about de- (Continued from page 4)
