DANNER COMPANY SELLS RECORD NUMBER FORDS

The E. R. Danner Motor company turned in a record number of sales for Ford cars for the month of August, eclipsing all the other dealers of the county and making a record hard to beat by any Ford agency in the state. The salesmen for the company sold 35 Ford cars last month, nearly half of the total number sold in the entire county. The total number of Fords sold in Lane county was 75, with agencies at Cottage Grove, Creswell, Junction City, and Eugene accounting for the remaining 40 cars.

Next month promises to be as good for sales, according to one of the salesmen of the company, who based his statement on the result of the first days business. If the company keeps up its record breaking pace it will become one of the leading Ford agencies of the state.
