About Your Health Things You Should Know

by John Joseph Gaines, M.D.

WORRY.
I knew a woman, wife of a small farmer, who was born in pioneer days when the popular habitation was a log cabin with a dirt floor. She married early, and her family of eight children. Her hands wove the clothing of the family; she sewed the garments by hand—no machines then. She cooked, summer and winter, on a log fireplace. She helped do the butchering, 'rendered' the lard, made soap from the 'trimmings' and did the family wash at the nearby creek. I cannot think of anything that she did not do, or assist in doing—even to bringing fire-wood and helping to chop it into suitable lengths for use as fuel.

She lived to be a little past ninety-two years of age! And, with all this, I never knew her to worry or complain at her task.

This woman was not a 'freak'. We are the freaks, we who worry at trifles and regard all work as degrading, all toil as unworthy of our hands. We have almost come to regard motherhood with indignation in these days of fashion and 'progress'.

My point is, that work never harmed any living soul, if carried on intelligently, without worry. Sickness is merely the chastening for offenses committed—ignorantly or wilfully, and every crime against right living is sure to bring punishment.

Worry kills—striving to do the impossible, at unseeming hours, overfeeding, intemperance in ambition, and in neglecting the laws of rest and recreation.

What a lesson in longevity! There are none so blind as they who will not see.

Asks Doctors' Cooperation

Springfield physicians are being asked to cooperate with the Oregon board of health in a state wide campaign against diphtheria, according to announcement made by Dr. W. T. Phy, of the Hot Lake sanatorium, president of the health organization. The local medical men will be asked to urge all under their care to either be immunized against the disease by a course of toxin-antitoxin or to have the Schick test which determines whether or not, in maturing, they have developed immunity. Children are immune only in rare instances so all parents should take their boys and girls to the family physician for a course of toxin-antitoxin, says Dr. Phy.

The state highway commission refused to approve the boundaries of the proposed Falls City-Siletz-Newport road improvement district. The purpose of the district was to construct a highway from Falls City to Newport, via Siletz and Vaisetz. The proposed road would shorten materially the distance between Willamette valley points and the coast. Refusal of the highway commission to approve the proposed boundaries of the district was based on protests received from Lincoln county officials.

"Putting Up Stuff"

At no time except Thanksgiving and Xmas is the house so full of entrancing intriguing odors! Whether it's jam, jelly, pickles or fruit the result is the same!

If you're a man or boy you're "in the way" and have to watch your step or get in Dutch! If you're handy with a peeling knife there's a CHANCE of you getting your car in and getting a whack at some of the leavings in the cookers but MOSTLY you're NOT wanted about the kitchen. Are we right?

So in case you're one of these unnecessary MALES who is reading this why just quit reading at this point and turn the newspaper over to the lady folks—who will APPRECIATE it a whole lot more.

What's the Difference In Spices?

Fifty years ago an intrepid peddler whittled out a whole mess of WOODEN NUTMEGS! Sold 'em all through the whole country. Nutmegs were more costly THEN so this bird made a cleaning. There's ALMOST as much difference in some of the other spices—if you but KNEW it! We carry ONLY the BEST! Little higher priced maybe but you're always SURE your "canned stuff" will be RIGHT when winter comes.

Personal Efficiency In "Canning"

Why emerge from a canning bee with hands ruff and discolored, knuckles swollen, and nails black when its possible to dash in here BEFORE you start and get a pair of our rubber gloves for 75c and ensure the whiteness of your hands. Answer in one syllable!
