WORDS FROM THE LIPS OF GREAT MEN

The Secret of All Enterprise and Energy Exists in the Principal of Individuality."-James Fenimore Cooper.

#### WHAT TO DO WITH THE O. & C. MONEY

How Lane county should spend the million dollars or so coming to it from the Oregon-California Land grant refund from the federal government has been the subject of a lot of talk and much advice to the county court. While we are not criticizing these people who are free with advice for we suppose they have the welfare of the losing their health by denying themselves food in county at heart, we do think a lot of them are attempts to reduce their weight so as to be in "talking through their hat."

pay all the county's debts. Everybody should pay their debts. The county has hundreds of thousands of dollars in road bonds outstanding. We take it that these advisors want these all paid off

But, when we sold our road bonds we made no provision for taking them up before they were due. There are but a few thousand dollars worth that we probably could get hold of at this time without we went into the market and paid a premium for them. If we buy other bonds to take the place of or offset our own bonds outstanding, who is going to take the blame if we make a bad investment. These people who are so free with advice surely will not.

Of course good printing is essential-so is modern printing.

Good printing means doing the work well-paper, arrangement and treatment the very best, but good printing must embody one other essential quality-it must be modern.

It must be modern in all physical appearance, so it will do business and sell goods and cope with all modern conditions to which good printing is subjected.
