About Your Health

Things You Should Know

WALKING.

To walk in a circle within a bedroom is better exercise than sitting in a rocker in the same room; to walk, even in a similar circle outdoors, multiplies the benefits by several hundred. Walking on pavements is advisable where one can do no better; but, it is walking on the ground, through the forest, over the hills, down the vales, in the jungles, on the golf-course, along the stream—in such places, there is no sort of exercise its equal.

The hunter of wild game, the fisherman, or other outdoor tourist looking for highly-desirable trophies, may return empty-handed, tired, worn, discouraged; they may forget that the physical tests needed are worth many times more than a full game-bag or creel.

Nimbleness of foot may be acquired, but not by repose in the arms of the swivel-chair. An active, capable body is necessary to health and success; don't look for them from the window of a touring car along paved highways.

All the organs of the body were created for use—for service; to dwarf their size and destroy their power by indolence or laziness, is a sin for which there is no forgiveness—the penalty must be paid. Most if not all of our physical shortcomings might disappear if we kept each part of our anatomy up to the standard of full capability by well-directed exercise—and of all the exercises, walking is among the best.

DRIVING OUT LABOR. RUSSIA'S FRIENDSHIP. HUNTING THE FLEA. POUT, SNIFF, LOOK ALIVE.

Mr. Green, able, conservative and respected head of the American Federation of Labor, was invited to speak before the Young Men's Christian Associations in Detroit, then told that his speech could not be delivered in that institution. Labor leaders were asked to speak from various Detroit pulpits, then told the churches did not want them.

There may be good reasons for these sudden changes. But Christ, who drove the money changers from the Temple, might be surprised to see his modern representatives driving laboring men from the pulpits.

It looks, according to the union men, as though money changers were "on top" once more.

In a little while Queen Marie of Rumania, with her pretty daughter, will be dining at the White House. The Queen will be able to tell her husband that she met one American that did not insist on talking about himself. H. G. Wells says that is our trouble, you know.

If the Queen will take a sheet of paper as big as a playing card she will be able to write on it all that the President will have to say, beyond politely answering direct questions.

But when the interview is over the President will know a good deal about Rumania. He believes in listening, and that's one reason why he is President.

Professor Jerome Davis, of Yale, reports an interesting talk with Stalin, the real ruler in

Russia. Stalin says Russia is willing to pay the money that foolish American bankers lent to Kerensky. Stalin really should do nothing of the kind. Those childish bankers grabbing at usurious interest rates and discounts, ought to digest that lesson.

They are now lending billions of the American people's money to various concerns in Europe. Many of those billions will never come back.

However, that's another story. The important point made by Stalin is that it might pay the United States to be friendly with Russia. Stalin said, "Russia now needs the United States. Possibly the day might come when the United States might need Russia's friendship."

The Pan-American health conference declares war on the bubonic plague flea, from the Arctic to the Antarctic.

This means killing rats, ground squirrels, flea bearing creatures of all sorts. Samples of fleas captured will be sent in for identification.

Nothing permanent, however, will be done until man completes his conquest of the globe by removing from it, mercifully, all animal life other than his own.

The gaping crocodile from whose gums and tongue the tsetse fly extracts the germs of sleeping sickness, must go, also dear little pussy, that carries diphtheria germs in its fur to the little girl's face.

The latest beauty cult, must come here. It says: "Work all the muscles of your face, keep young, retain your alert appearance. Pout your lips to make them handsome and full. Roll your eyes frequently and SNIFF. Sniff violently, forming wrinkled ridges on the bridge of the nose. Move your eyebrows up and down. Only a dead face, with no muscular action in it, becomes an old face."

That advice is taken literally by inhabitants of the monkey cage. They do all that the beauty cult suggests. Our ancestors, ape-like, did the same until language was invented. As men became civilized they used words instead of gestures and twitching faces.

A man sneering still uncovers his canine tooth, showing it ready to bite without closing his lip, as do the baboon and wolf. But the calm face is the higher type. Compare the Venus of Milo and stop.

The Judge's Joke

AMERICA SPENT MILLIONS FOR SAXOPHONES LAST YEAR—THAT'S A LOT OF MONEY TO BLOW IN!

When a man is hit by an auto and not killed the doctors say merely that he is badly run-down.

When a girl elopes from her bedroom these days the Old Man generally goes out and holds the ladder for her.

The attention of the Society for the Prevention of Cruelty to Animals is called to the fact that a radio set has been installed in the Toronto Zoo for the entertainment of the occupants of the monkey cage.

NO FOOLIN' HER

New Maid:—"I found this purse upon your desk, sir."

Junior:—"I must reward you for your honesty. I left it there purposely as a test."

New Maid:—"That's what I thought, sir."

Glady:—"I'm awfully sorry, but Papa says we must not see each other any more."

Jack:—"Oh, that's all right, if he wants to cut down the light bills, I'm willing to help. Darkness with you, dearest, is good enough for me."

GOOD HEARTED

"Johnny, who took the cookies from the pantry?"

"Mother, I gave them to a poor little boy who was hungry."

"You have a heart of gold, dear, who was the little boy?"

"I Mother."

TOO BAD

"Your infernal loud speaker kept me awake 'till two o'clock last night."

"That's too bad—if you had stayed with it just a little while longer you'd have heard some swell stuff from Paris."

COULDN'T STAND ONE

"So you didn't take any vacation this year?"

"No, I thought I needed a rest!"

They can improve the auto—paint it up to look nice—get more miles per gallon but they can't give it horse sense.

HIS MASTER'S VOICE

Sargeant:—"Button up your coat!"

Young married recruit:—"Yes, my dear."

A little shine on daughter's nose now-a-days bothers her as much as dust on the furniture bothered her mother.

SAFETY FIRST SLOGAN TO BE ANNOUNCED SOON

Winner of the safety-first slogan contest will be announced soon by Safety Engineer Edgar Martin of the Booth-Kelly Lumber company. It was stated yesterday. Judges of the contest are expected to make a decision immediately. The contest which was open to all employees of the company, offered a prize of \$10.

According to Martin, the contest will be conducted differently next year. A prize of \$10 will be given the winner and prizes of \$5 each awarded those who name the best slogan from the Wendling and Springfield plants.

Additional copies of the Four-L Lumber News will be received here this week. The News is devoted to Safety-First, and it is the wish of the local unit to give it a distribution throughout the community. Secretary D. W. McKinnon said. In it will be a paper of safety-first by Mr. Martin.

Hold Business Meeting

Last Thursday the Junior Women's class of the Methodist church conducted a business meeting at the church parlors. The chief concern of the class now is raising money for the remainder due on the bulletin board.

They decided each to earn \$1 between then and October 22, when a social meeting will be held. At that time they must tell how the money was earned. At Thursday's meeting Henry Foss and Lee Putnam surprised the class by serving refreshments after the meeting.

IS WOMEN WISER?

For the last five or ten years I've noticed a very peculiar thing among men and women. A woman of forty looks about 25 years of age, while a MAN of 40 LOOKS about 45! Men that is MOST of them, seem to feel that they'll get grinned at if they fight age, while a woman KNOWS she'll get grinned at if she DOESN'T fight age! Women have found out that skin tonics, powder, rouge, shampoos, lipsticks and creams are lethal weapons to knock old Pa Time for a goal and she trips in this store of ours and makes us hump ourselves keeping an up-to-date stock of beautifiers. Men take a liver remedy and whether it performs or not call it a day and let it go at that.

Are women wiser than men?

We've Found THIS Out About Face Powders!

The SAME powder is NOT good for EVERYONE! The clever woman experiments very, very carefully until she finds the EXACT sort, shade and consistency that BEST suits her. She then STICKS to it and it to HER for years! And as we carry 25 different sorts, its rather certain we carry YOUR kind!

Painted Lips!

Not so MANY years ago were a sign of depravity but NOT today! Nussir! We just received a new brand, which when used, cannot be told from the REAL FLESH! It doesn't look like paint at all! This is going to be the real seller this winter you can bet on that.

SPECIAL!

Combs are "the thing" these days! We read about it in one of the foreign style magazines last summer, so we at once combed the market for superior, different, spicy looking combs in combs! They got it yesterday and are now on sale at prices about 30 per cent less than they SHOULD be!
