The present week is a busy one on the University of Oregon campus, and promises to end tomorrow and Saturday in a burst of college spirit incidental to the homecoming and annual gridiron clash with Stanford University on Hayward Field.

Many Springfield residents have attended various events in connection with the semi-centennial anniversary and the inauguration of President Hall. Graduates of the University living here are expected to be present at the homecoming and the football game Saturday.

L. E. BEAN GETS PLACE ON SERVICE COMMISSION

L. E. Bean, Eugene attorney, has been elected by the Republican State Central Committee as Republican nominee for public service commissioner, succeeding Thomas K. Campbell, resigned. The change in election phase makes it necessary for Bean to resign the nomination for joint state senator from Lane and Linn counties.

Due to the fact that official ballots already have been printed, the state committee must furnish stickers to insert Bean's name on the ballot as a candidate for the commission against Clyde Spooner, democratic nominee.

It is likely that the Republican central committees of Lane and Linn counties will meet soon to select a candidate to replace Bean's place on the ballot in the state senatorship race. John B. Bell, former senator, is being mentioned. The new senatorial candidate's name also must be inserted on a sticker.

Bean's election to the commission-ership is believed assured. The position has an annual salary of \$4000.

Bonds! Bonds! Bonds!

Voters are urged to read Section 4 of the Housewives' Council Constitutional Amendment authorizing the State of Oregon to go into irrigation schemes and into the business of manufacturing and selling light and power:

"Bonds of the State of Oregon, not to exceed five per centum of the assessed valuation of the state, may be issued and sold from time to time to carry out the purpose of this Article and the full faith and credit of the State of Oregon is hereby pledged for the payment of the principal of said bonds as the same mature, and the interest accruing thereon as the same falls due."

Every voter should know that the assessed valuation of Oregon is \$1,058,880,736, and that the Housewives' Council "Water and Power" board could issue and sell bonds for \$52,944,000. Your property would be a guarantee for the payment of this huge debt.

Oregon's total bonded debt, including that of all political subdivisions, is now more than \$166,000,000. Its State bonded indebtedness alone per capita, \$47.08, is the highest in the Union.

As fast as this political board might retire bonds, it would have the power to issue more; and as the assessed valuations increased the amount of bonds could also increase.
