

**LANE COUNTY CREAMERY CLOSES ITS BUSINESS**

Efforts were being made this morning to clear up accounts of the Lane County Consolidated Creamery, which closed its doors this week when unable to meet a mortgage held by the Commercial State bank.

The creamery has been operated recently by Milton Cyr, whose partnership with Roland Moshier in the creamery was dissolved a few months ago. Cyr and Moshier began operation of the creamery several years ago and at one time ran a branch in Eugene.

Things You Should Know

**HOUSEHOLD REMEDIES**

Beyond the question of a doubt, there are many old-fashioned methods of dealing with acute diseases that should be perpetuated. Water applied externally will reduce fever temporarily, and will contribute much to the patient's comfort, if applied with judgment. It should be applied warm—sponging—unless the physician is present and orders otherwise; it is free from depressing effect, which cannot always be said of drugs that reduce fever. Mustard plasters should be kept in the home, or at least the material for making them. By irritating the skin, we may partially empty a congested or inflamed part beneath, thus relieving pain. The surface should be vigorously red-dened to secure the best results. The "fly-blisters", once a family measure, should be dismissed as a household resource; it might do exceeding harm.

Castor oil is almost too well known to mention—a very valuable agent, and should be kept in every home. I may say here that I have found it an excellent application to the skin in irritations that do not heal easily. It has cured cases for me—one a badly fissured lip wherein the patient and his physician suspected cancer; the doctor had applied caustics to kill the thing, thus keeping up the "an-ger" in it; a week's constant application of pure castor oil cured it!

Turpentine, in these days of "kidney" order, should never be applied or given internally without the physician's advice. I once saw a fatal ending in a British dis-ease case, twenty years ago. Tur-pentine to stimulate the kidney is a valuable remedy, but is dangerous, and should be used ignorantly.

**BLOOD HOUNDS TRAIL POOL HALL BANDITS**

Bloodhounds were set on the trail this morning of two bandits who on Sunday night held-up a pool hall at Veneta, seriously wounding William Maddaugh, the proprietor, and on Monday night when resisting arrest fatally wounded Eston Hooker, 21, Veneta.

Crews from sawmills in the Veneta district are joining the sheriff's posse which is scouring the Wolf creek hills in search of the pair, one of whom is believed to be Albert Brownley, an ex-convict.

In the exchange of shots with possemen Monday night, both men were believed to be wounded. The trail of their retreat in the hills is marked with blood, and bloody clothing was found by officers late yesterday. The men appear to be lost.

Between 25 and 50 heavily armed possemen have now joined the man-hunt, and officers say it is only a matter of time before the bandits will be caught.
