**ABOUT THIRD TERM.
DECENCY HERE AND THERE.
SHAW'S BABY PRICE.
SPIRAL, NOT JAGGED.**

There is no question of a third term for a man who has only been nominated and elected once.

If not President Coolidge, WHO for the Republicans? That question interests Washington. Three names interesting the wise are Secretary Mellon, Secretary Hoover and Frank Lowden, of Illinois. Secretary Mellon, older than the two others, is young enough to manage admirably after the war finances for this nation and to work nine hours a day at his office.

Herbert Hoover has worked like a slave on development of resources, including the St. Lawrence Dam and waterways from the Great Lakes to the coast and the Gulf. The country appreciates his Governor Lowden, a practical farmer, has millions of farmers with him. But the main question is Does President Coolidge win the nomination. If he does, it is his.

Montana's Senate last week voted in favor of the Constitutional Amendment against Child Labor. The amendment may be lost, child labor being profitable, and profits hard to give up. But it is comforting to see decency here and there. In the end, of course, the amendment would help every State, just as the end of slavery helped all—including States that had the greatest sacrifices to make.

Child labor cheats grown men and women of work and cheats the next generation of its chance in life, to say nothing of mocking Christ's warning, "Their angels do always behold the face of my father, which is in Heaven." Child labor sends plenty of little angels to verify that text.

There are fine women in America. One of California, took up swimming "to reduce." Last week she swam the Catalina Channel, her eleven-year-old boy crying out to her, "Come on, Mamma, don't give up." When she finished the swim, the thirty-year-old mother was delirious, partly paralyzed and had been bitten four times by savage barracuda.

Too bad that such a woman should waste her marvelous vitality on a battle that pleases the morbid but does no good. The nation could afford to pay her to have twenty-one children instead of swimming twenty-one miles in icy water.

Bernard Shaw says mothers should be paid for having children and adds, "I would not have a baby for less than \$10,000." He underestimates it.

If he were a woman, with only a man's courage, and had had ONE baby, he wouldn't have another one for a million dollars.

France builds dozens of tiny airplanes, smallest in the world; every French submarine will carry one. One of these submarine airplanes rose from the water nine seconds after the submarine reached the surface, went up 2,000 feet, descended and went aboard the submarine again.

A fleet of submarines coming up near a big city, discharging its swarm of mosquito-like airplanes, each carrying its gas or explosive bomb, could make the next war interesting.

The "jagged" lightning, making "sparks" in the sky is not jagged at all, Mr. Legg, Westinghouse engineer, shows with photographs 150 times faster than motion picture cameras, that the lightning bolt is a spiral. That interests those who know that the spiral, as opposed to the circle, is the emblem of progress.

Our earth, accompanying the sun in its journey through space, travels ahead toward the star Vega, we going around it, following it, take a spiral course. You are many billions of miles from the spot in the universe where you were born, and probably never will go back.

Don't neglect colds, but don't be panic-stricken when told that Europe's influenza epidemic may come here. A wise doctor has said, "The best thing to take for a bad cold is two days," which means two days of complete rest in bed, at an even temperature, drinking much water, eating as little as possible.

Aid Gives Program

The Ladies Aid gave a program at the Baptist church Monday night, postponed from the previous Tuesday on account of the flood.

Mrs. J. Garber had general charge of the evening's entertainment. A skit was presented in which Mrs. Alice Hawke, was George Washington, and Mrs. Tobias, as Martha Washington, had leading roles. The playlet had a political character and was full of comedy. One of the largest crowds to attend a Baptist entertainment heard the presentation.

College a-la-Spud

Miss Garnet Holman, Mt. Airy, Ia., has worked her way through Simpson (Ia.) college by peeling potatoes in a dormitory, "2,000 bushels of them in 4 years," she says. When she leaves in June a gold potato is to be awarded her by the school.

SPRINGFIELD STUDENT WINS CONTEST PRIZE

University of Oregon, Eugene, Ore., March 3—(Special)—Paul Tracy, of Springfield, senior in the school of Journalism, won the second prize of \$100 in the Murray Warner contest, according to the findings of the judges issued Wednesday. Phil T. Bergh, of Roseburg, senior in business administration, received the first prize and an award of \$150.

Tracy's subject was "Must China Turn to Force?" Bergh wrote on "Under the Cloak of Disorder" and Walter Butler, Creswell, who won third prize of \$50, wrote on "The Gods of East and West."

The general subject used every year for the basis of the essays is any question that tends to improve conditions between this country and the Orient, and each writer discusses a different phase of the topic.
