Prideful Reply

Joe—Bill, I won't have it! For the last time, I ask you, will you keep away from my girl?
Bill—Thank the Lord, that's the last time I'll ever hear that question.

This Way Out

"Help you out, why certainly," said the millionaire as he tossed out the panhandler.

Purposeful Crime

Insurance Examiner—You say you never had an accident? How about the time you were bitten by a dog?
Thompson—That wasn't an accident. The dog did it on purpose.

'Twon't Be Long Now

"Do I bore you," asked the mosquito politely, as he sank a deep shaft into the man's leg.
"Not at all!" replied the man, smashing the mosquito gently over the head with a book. "And, by the way, how do I strike you?"

Facts of the Case

Reporter—Were you and Murphy cool and collected after the explosion yesterday?
Flaherty—Well, you see it was this way. I was cool, but Murphy was collected.

Family of Impersonators

"You keep a dog, don't you?"
"No; if we hear a noise in the night, we bark ourselves."

Everything Relative

She—"Isn't that blonde girl next to us pretty?"
He—"Next to you anything is pretty."

LOCALS GIVE LEBANON BATTLE FOR VICTORY

Lebanon high school defeated Springfield on the Strawberry city floor Friday night, but it was not without a battle, the final score of 18 to 17 indicating the closeness of the game.

Springfield outplayed the Strawberry pickers during the first period of the game, annexing nine points to six for Lebanon. At the end of the half, it looked like Springfield's game. But Lebanon came back strong in the final few minutes of play, pushing their score to a slight lead and retaining it until the whistle.

The game was the last of the season for the Springfield team. The season, from the standpoint of victories, has been an unsuccessful one for Springfield, only one game having been won.

Two Principles

ALEXANDER GRAHAM BELL discovered an electrical principle upon which a great communications art has been founded.
Those who undertook to give practical value to his discovery likewise left to their successors a principle of service, that has been developed into an intercommunicating system of over 17,000,000 telephones.
Both of these principles were built upon and developed with the same objective,—that of enabling men to talk one to another easily, conveniently, cheaply. With nation-wide telephone service already an accomplished fact, these principles still continue to act and react upon each other, producing new ideals of service, new goals toward which to strive.
