SAVE YOUR EYES

Many people still speak of near-sightedness far-sightedness, astigmatism and muscular trouble as though they were some kind of eye disease, but they are no more a disease than a small ear or a large nose.

Eyestrain is caused by a faulty shape or false position of the eyeball, which condition renders vision unsatisfactory or painful, and can be relieved by correctly prescribed and ground glasses.

The right way is our way.

Time to Can

Be Prepared to Take Advantage
of Prices

Every fruit and vegetable has its "week"—when all crops are ready for picking—prices are low—making canning profitable. Be ready for canning when canning hours arrive. Look over jars, caps, rubbers, utensils, sugar and spices. Make up a list and be ready—then you will reduce the labor of canning fully fifty per cent.

We have canning supplies of all kinds—and priced as reasonable as you will find anywhere. Come in and let us assist you with suggestions for best canning methods.

GRAY'S
CASH & CARRY

Rayon

Vests

49c

A new shipment specially bought for this "Super-Value" Number 3. They feel like silk, look like silk and wash so satisfactorily. With dainty self shoulder straps, nicely finished and come in four delightful pastel shades—pink, Nile green, orchid or peach.

Testing Times

ON a levee at a bend in the Mississippi a thousand men were building with sand-bags a second-line defense against rising waters which threatened hundreds of miles of fertile cropland. Over a telephone, housed in a wooden box nailed to a tree, an engineer was talking to headquarters—reporting on the progress of the work, asking for reinforcements and additional material, receiving Weather Bureau forecasts which would be vitally important to him in planning the strategy of this grim battle for lives and property.

The telephone had been put in service but a few minutes before, after a construction crew had worked from sunrise to sunset, often waist-deep in swamp water, to string fifteen miles of line to this isolated outpost.

Such is telephone service in an emergency—service in which telephone men and women do very much the same things they do every day of their lives, but do them under conditions that give vivid emphasis to the import of their efficiency, devotion and fidelity to public interests.

In such crises, when even the most commonplace of calls may become a matter of life or death, the public realizes its day-by-day dependence upon the telephone and upon the men and women who make of it an instrumentality of human service.
