SOUTHERN PACIFIC

Here they are--Seven League Boots
for the man who steps on the gas

Seven League Boots had a wonderful kick because of long mileage, safety and satisfaction for the user, presumably at low cost per mile.

It takes some such extreme comparison to tell you what we want you to know about the new Goodyear All-Weather Balloon. For here is a tire so outstanding that it literally outranks the field.

You may already realize the amazing mileage made possible by the Goodyear discovery of SUPERTWIST Cord. With SUPERTWIST, Goodyear has created a carcass which seems to defy wear.

But not until you've actually used this new Goodyear, can you know the present day last word

in traction, safety under all conditions, slow, even tread wear, quietness and smooth running—all coupled with a beauty of pattern which makes this tire a joy to behold.

We have sold a lot of tires with satisfaction to our customers. But never have we offered a tire which compared with this Goodyear All-Weather Balloon.

And never have we seen such quick response. Public approval has already stamped this new Goodyear as the world's greatest value and the world's most beautiful tire.

Come in today and convince yourself. We won't say another word if you'll just examine this masterpiece of tires.
