Local Scouts Preparing to Go to Summer Camp

With the unusually excellent record of Carrol Adams as their example, Springfield Boy Scouts will leave Sunday for the last period of Camp Lucky Boy, the Lane county scout camp on Blue River. At least four boys—Lyle Zacharay, Bill Cox, Bill Simpson and Franklin Drury, will make the trip.

The record of Carrol Adams, Springfield's only representative at the first period of the camp, was praised highly today by County Scout Executive C. R. Clark, who declared that this city may well be proud of the youth who was under the care of the executive during the outing.

Adams attained the enviable achievement of becoming a member of the Sons of Daniel Boone while at camp. And the executive explained that to do this is no easy job.

Requirements for this honor include the obtaining of the pioneer merit badge. This is won by building a lean-to out of brush and native materials, building a truss bridge that will hold 400 pounds with the stringers lashed together at the center, building a camp kitchen nook and knowing all knots and their uses.

In addition, the would-be Boone must spend a night alone in the woods. Adams chose to spend his

night on top of a mountain. With but two canteens of water, two matches, and similar scarcity of equipment for comfort, the boy fearlessly climbed into the rocky area and built his fire, staying there alone all night, preparing his own meals and keeping his own camp in first class condition.

Springfield people interested in Scouting are invited to visit the camp on Blue River at any time, but Sundays are visiting days. Between 40 and 45 boys will be at camp this period.

Dr. W. C. Rebhan will go to the camp next week to give it a thorough sanitary inspection.

SCOUTS GET BIG TRIP TO LAKE IN MOUNTAINS

About 10 Springfield Boy Scouts are promised a big time on a trip to Scott's lake, high in the Cascades, this week-end. At a meeting Tuesday night the boys were given instructions as to preparations for roughing it.

Transportation will be furnished to take the boys to Scott's lake, where camp will be made. From there they will go by foot into the glacier region. Earl Wheeler, senior patrol leader, is helping plan the jaunt. Transportation

is in charge of H. E. Maxey, scout committeeman.

The boys leave Saturday afternoon at 1. They return Sunday night.
