FARM MARKET REVIEW

(O. A. C. Extension Service)

Grain: Favorable crop conditions in Canada caused some weakness in the wheat market early last week but good export demand resulting from delayed harvest and lowered condition of the European crop strengthened the domestic markets again at the close. Premiums for high protein wheat continued firm and good quality low protein wheats such as soft red winter and some varieties of Pacific coast white wheats were in strong demand in St. Louis territory where prices advanced 21 cents during the week on soft winter and placed that market in line for receiving wheat from the Pacific Northwest where wheat is now moving heavily into export channels. The rye market was firm on good export demand. Corn remains firm in anticipation of a short crop and oats and barley were steady, cash barley being firm and prices a little higher at Pacific coast markets last week on good export interest.

Flax: The flax seed crop of North America is now estimated at 72,178,000 bushels or 11 per cent more than last year and about 10 per cent more than estimated in July. There is a large increase in the United States over the July estimate but a material decrease in the Canadian forecast.

Grass Seed: Kentucky bluegrass seed is moving out of growers hands slowly at the lowest prices since 1916, the average being about 65 cents per bushel in Kentucky, and 85 cents per bushel in Missouri about the middle of August. Orchard grass seed is also moving out slowly at prices about in line with a year ago or an average of \$1.50 per bushel or reclaimed seed in Kentucky, \$1.25 in Missouri and \$1.20 in Virginia.

Livestock: Good killer and feeder cattle were firm but poorer kinds scarcely steady in most markets. Hogs were unsteady with prices tend-

ing stronger on desirable killers and weaker on pigs in eastern markets. Fat lambs were steady in local markets but went sharply lower in the east on heavy receipts which were sorted heavier. Feeding lambs met a strong demand at steady prices.

Butter. 92 score butter at San Francisco advanced from 45 cents to 46 cents per pound last week, where receipts were less than current requirements and some storage butter was taken out. Prices advanced in eastern markets also.

Feeds. The tendency of feed prices is generally upward at a result of high prices for corn and other feed grains.

Our Practical Pattern No. 1101

The charm and simplicity of the little girl's dress offered this week should appeal especially to the mother who sews. Carried out in any soft crepe or silk material in a pretty shade of rose, blue, cream or tan color,—this style would be suitable for any "dress-up" occasion.

A dainty, yet simple trimming is supplied by the two rows of narrow satin ribbon, in either the same or darker color, which is stitched on the collar, sleeves and hem of the dress. A black satin or velvet bow at the neck finishes it off with an attractive touch.

May be obtained in sizes 2 to 6. Size 4 requires 2 1/4 yards of 36 inch material. Patterns will be delivered to any address upon receipt of 25c in cash or U. S. Postage. Always mention size wanted. Address: Practical Pattern Department, 17 West 28th Street, New York City, and always mention this newspaper.

A Sure Sign

Hairlock Combs—"Too bad Katherine didn't write you today."

Whatson—"Who said Katherine didn't write me?"

Hairlock Combs—"Nobody did but I just handed you a piece of gum and you took off the wrapper, threw the gum in the basket, and now you're chewing on the paper."

Knew His Capacity

Mrs. Casey—"Oh, Mrs. Murphy, your husband has been run in for intoxication. Run down and bail him out."

Mrs. Murphy—"Sure, now, if my old man's drunk, you couldn't pump him out."

Given is Right

She—"How many cigars do you smoke in a day?"

He—"Oh, any given number."
