STRAIGHT AHEAD ON THE MCKENZIE

The McKenzie highway is, and we believe always will be if properly preserved, noted for its scenic grandeur. The chief value of this highway is scenic rather than a means of cross state transportation. And while the latter is important the scenic value far overweighs it, especially when it is considered that nature closes the pass from five to seven months out of the year.

The McKenzie highway being a scenic highway it should be so constructed to give the best vision to the many beautiful scenes—it should follow the natural contour of the mountain sides and meander around the river's edge generally. The "straight ahead" policy followed by the state highway department on all its roads the last few years, we feel, is a mistake on the McKenzie. If followed out it can but make the McKenzie highway a speedway of little esthetic value to the tourist or our own nature loving people.

The county court and Lane county chambers of commerce should consider this question well and make their wishes known to the highway department before more straight cuts are made through farm lands or camp sites and summer homes on the McKenzie river.

Don't criticize the younger generation too much. Remember Jesus was criticised by his elders when he left the apprentice carpenter's work bench and started out to found the Christian religion. If he had listened to this criticism where would the world be?

Two Scotchmen in swimming disputed as to which could stay under water the longest. They contested the point, the one who came up first to buy the winner a dinner. Both were drowned. Some Oregon cities knock each other so much that they both die industrially.

We would say that the Scotchman who held his wedding in the back yard so the chickens could get the rice was merely using good judgment in utilizing the by-product of the marriage business.

The man who wrote "A member of Eugene Terminal committee" across a candidate's picture posted at the mill was surely practicing irony. This seems like subtle sarcasm instead of an indorsement. We wonder who this wag is.

The Japanese armed with machine guns, aerial grenades and high explosives hurled by modern methods will make chop suey out of the chinamen in short order, even if there are "God only knows how many of them." We imagine the wise chinamen will make peace right-away quick.

"Don't hide that cherished bit of lace in the scrap bag, but flaunt it in the high places, where it will be seen" a writer on fashion advises the women this season. Our advise is that men wear smoked glasses if this it to be the fashion.

There are indications of strengthening markets in lumber, livestock and agricultural products. Well perhaps we will have a good year yet despite the coming election.

DR. FRANK CRANE SAYS

FAT

There used to be a line in a play that went, "Nobody loves a fat man."

At least nowadays no woman wants to be fat. There is just one cause of fat, however. People should remember that they never put anything on their abdomen or hips in the way of fat that does not come through their mouth in the way of food.

It is nice to talk about these things and it is less humiliating than to admit that we eat too much.

The real cause of fat is that we eat too much and live too much at ease.

If some of the ladies who complain of too much obese tissue would make a practice of taking the broom and sweeping the floor and getting down on their knees and mopping up the kitchen and doing the family wash, they would speedily recover their desire for slinness.

The candy habit grows and grows. No better cure for an enlarged abdomen can be found than bending over a wash board and no better cure for piano-shaped legs than plenty of walking.

If we would get down to the simple life and move about more and eat less our figures would show it.

Exercise for the sake of exercise is pretty hard to take, but exercise performed in the course of one's daily duties is not so hard.

One ought to arrange one's life as much as possible to wait on one's self. The necessary action of the body in attending to one's needs will have a great effect upon one's shape.

I met a man in Paris some years ago and when I asked him on behalf of a friend where a good valet could be secured he replied that he did not know about valets, as for some years he had been trying to see how many things he could get along without and not how many things he could get.

See how much you can do without and arrange your life as much as possible so that you will have to wait on yourself and you will not have much trouble with your figure.

A Packard Or A Ford?

Either or both, the same in Bifocal lenses. The Duo-Site or Kryptoks? Either will convey the rays of light to the eye and is better than always having two pairs of glasses.

The Duo Site Bifocal is the perfection of Optical science.

The Kryptok is a comfortable lens for business or pleasure.

56 X J. BEN HALL

FOR
District Attorney
Republican Primary
May 18, 1928

TWENTY YEARS LEGAL PRACTICE.
RESIDENT OF OREGON TEN YEARS.
RESIDENT OF LANE COUNTY THREE YEARS.
NOT JUST POLITICALLY DRY, BUT PERSONALLY DRY.
To the Voters of Lane County, Oregon:

We the undersigned farmers of Lane County, do respectfully endorse and recommend J. Ben Hall, who is a candidate for the Republican nomination for District Attorney for this county at the coming primary election.

Mr. Hall, a resident of Oregon more than ten years, and a citizen of this county three years, is well qualified for the office he seeks, having had more than twenty years of actual law practice. He is a man of sound judgment, honor and integrity; a member of the Presbyterian church, Eugene, and an active worker.

Mr. Hall not only believes in prohibition, but for years has taken an active part in sensible and sane law enforcement.

He says, "To remove the pollution from a stream, clean it at the source. Driving the still operators, rum runners and wholesale liquor dealers out stops the small offender. Every law violator should be punished in proportion to offense committed, and not in accordance with his financial or political standing." That's his policy.

Voters, do you know that J. B. Hall is the man who made the survey of this county to secure information on the fruit and vegetables available for more canneries? These surveys are now being used in different Chambers of Commerce and the industrial departments of the railroad companies to inform canneries of the desirable locations in Lane County. Mr. Hall spent his money and many week's time securing this information, which was the first move for more canneries in this county to help care for farmers' products and make payrolls.

Now farmers, laboring men and business men, show your appreciation by going to the polls and voting for J. Ben Hall for District Attorney.

An Icy Pie - -

That's the popular ice cream portion with the youngsters and many oldsters also at Eggimann's. Has the same ice cream as the well known cones but can be eaten handier. No musiness with on icy pie—none of it gets away from you on a hot day.

Try one in any of the various assortments of Eggimann's ice cream. After that you'll be an icy pie fan.
