

KOLSTER TO GO WITH BYRD TO SOUTH POLE

Elery W. Stone, president of the Kolster Radio corporation, announced this morning that an order has been placed by the Byrd Antarctic Expedition, scheduled to sail from New York on August 15 for a year and a half of exploration around the South Pole, for Kolster radio compasses, broadcast receivers, loud speakers and headset.

"This scientific expedition of 55 men will be better and more completely equipped with radio apparatus than any band of explorers in history and, because lives depend upon it, great care has been taken in its selection," said Mr. Stone. "It is a matter of profound satisfaction to Kalster Radio and Commander Byrd and his staff of radio experts have chosen Kolster equipment for such an exacting test. Much of the success of the expedition will depend upon accurate radio direction-finding, both on the voyage down to the ice base at the Bay of Whales and during subsequent explorations by radio-equipped airplanes and sled parties setting out from the base near the South Pole.

"The Kolster radio compass will be used, one on the base trip and another in a portable radio house about 10 miles removed, to form a base-line for triangulation on radio signals from advance parties, so their exact location will always be known.

Small Fire Reported

A belt which slipped off the motor operating a compressor at the Sanitary Meat market caused a slight blaze last Friday morning. The fire department was called and soon extinguished the blaze. The market was filled with smoke when the firemen entered, giving the appearance of a sizeable blaze.

Dollar Bills Marked Down from \$2.75 to \$1.50

A New York Store ran an excellent advertisement the other day with the caption:

Very Handsome Dollar Bills
Were \$2.75 Each — Now Only \$1.50

and the first paragraph stated that if money were sold in stores no sensible person would buy a dollar bill for \$1.50 simply because the storekeeper had once priced it \$2.75.

This is exactly what we have tried to tell you about our No Sale Policy. We could, of course, mark our merchandise twice as high and later on mark it down to a normal price, but we don't do business that way. That would be selling you a Dollar Bill for \$1.50, wouldn't it?
