SELLS FLOTO CIRCUS TO SHOW IN EUGENE AUG. 24

Sells Floto circus will be in Eugene, August 24, for a performance in the afternoon and evening.

The time-honored custom has always been to refer to each successive year's circus as bigger and better than ever, but the phrase has been so hackneyed that this year Sells Floto hesitate to use it, despite the fact that they affirm it adequately describes the entertainment. There is material enough in this year's circus to make a dozen circuses of the old days.

Hundreds of horses, camels, elephants, and sacred cattle, richly accoutred, are utilized in the program.

The subsequent three-hour arenic performance which Sells Floto gives, breaks all records of the past. Every one of the 500 participants is a champion in his own line. The exhibit of freaks is larger than ever before and the menagerie has been augmented.

Three herds of elephants open the circus tournament presented by Sells Floto circus, introducing lady elephant trainers, Effie Rairden, Irene Ledgett and Bobby Cornett.

Then a ceaseless procession of athletic specialists fills rings, rigging, platforms and hippodrome oval. There

VERY LATEST

By CECILE

Skirt trimmings run to the side for the fall season—and usually it's the right side.

In the photograph one of the more conservative treatments is shown in the form of a soft side drapery dipping below the hem in a decided point to accent the uneven hemline and furnish the one-sided motif for the costume.

The frock, which is an excellent type for afternoon and semi-formal wear, is developed in a deep beige tone of crepe satin, made with a picot edge and shows both satin and crepe surfaces of the fabric as its points swing below the hem.

New Fall Colors and Fabrics

Vivid reds, soft, melting browns and a rich wine shade are important contributions to the new color group for fall. Black and printed satins will be much used. Canton crepe returns to favor—either alone or in combination with velvets—and its newest interpretation is patterned in metal threads which dimly trace an all-over design. Prints—contrary to expectations—have not "died out," but have become as much of a staple as plain colors and are splendidly represented in fall fabrics.

Practical—tho' Feminine

New fall frocks indicate a return of quite practical semi-tailored styles for daytime wear. All the flattering feminine touches are there,—but there is an added trimness, an efficient, well-tailored "something" about these newer frocks that sets them apart from the compromise styles of other seasons.

are riders of note in the circus world, which include George Hanneford and the riding Hannefords, Irene Ledgett, the Fashion Plate of the white tops, Bert Sloan, the acme of perfection, in the art of tight wire performance, Cecil Lewandi, Monna Connors, whose wonderful feats in horsemanship have never been equalled. Marvellous iron jaw act by Dora Lawrence, Kimball Sisters, Anita Lamar, and King Sisters in their wonderful exhibition in the high dome of the canvas, displaying evolutions in mid-air which have no like or equal in all realms of the circus; The ten Tengens Arabs and other well known athletes in astonishing innovations; Sells Floto Famous Munge Act, wonderful Kentucky thoroughbred equines ridden by 50 ladies and gentlemen; The Fisher Sullivan Troupe, The Flying Wards, Emma Ward, world's Champion Lady Aerial gymnast hanging by one hand from a suspended rope, this little lady casts her own body over her own shoulder as many as 125 times without pause, Peter Taylor, King of wild animal trainers, will present for the first time in circus history a collection of Siberia and Bengal tigers and African lions. The active participants in arena exploits number five hundred and clowns—a bunch of them right up to the minute to delight the kiddies.

Sells Floto promise a rare treat in their menagerie, 53 cages of rare wild animals, 5 herds of elephants, 3 herds of camels, a two ton Hippopotamus and a Pygmy Hippo of which there are only two in America, one with Sells Floto circus the other with Bronx Zoo in New York City, arranged so the public may view the marvels of forest and jungle.

sons. Watch for this characteristic in choosing fall togs—if you would have the very latest.

The In-Between Hat

Just about now you are seeking a fresh, trim little hat to bridge the gap between summer and autumn styles. Choose either a soft felt in a medium shade, with a suggestion of brim to shade the eyes, or a light-weight silk velvet shaped much like the felts, perhaps with rows of silk stitching by way of trimming. The latter hats come in soft shades of medium green, amethyst, raspberry, chamols, black, shades of medium blue, sapphire and navy.

A LIGHT LUNCH OR FULL MEAL

A NATION-WIDE INSTITUTION

"where savings are greatest"

942 Willamette St., Eugene, Oregon.

"This Is My Kind Of Store."

A typical J. C. Penney Company customer is speaking, with a home and three active youngsters to shop for.

She is very particular about Quality, because experience has taught her that "cheap goods are dear in the end, but paying cash and carrying her packages home she considers a sensible way to economize.

"My kind of store!" That's what several million thrifty housewives said about us last year.

Stormizing Stops--

Oil Pumping and Motor Knocks!

RESTORES ORIGINAL POWER TO MOTOR WITH NEVER A MOTOR FAILURE

Oil Pumping and Motor Knocks are sure signs of worn, wasteful cylinders. Motors using too much oil (oil pumping) are also excessive gas consumers.

Cylinder wear causes oil to be sucked into the compression chamber during the suction stroke. This causes excessive carbon and carbon knocks. With "oil pumping" come many of the most serious kinds of motor troubles and rapid wear from poor lubrication.

Stop Oil Pumping and Motor Knocks the right way by having the cylinder walls reconditioned—Stormizing will make cylinders as accurate and efficient as when new and restore full power to motor.

A New Stormizing machine just installed. Works on any make car.

Drive in and let us explain the Stormizing process—it may save you the investment in a new car.
