Service Is First with us

You can drive out of this service station with confidence that your machine has had a close inspection. We notice your tires, look at the water in your radiator and in general give your automobile a close scrutiny the minute you drive up.

If there's something wrong we either fix it or tell you about it. Service is first with us. Even with a full tank of gas you can't go far with a flat tire. But with everything right General gasoline will take you farther than ordinary gas.
